Payable at destination, 50 per cent. extra.

There is no advantage in prepayment of carriage by goods train, the rate being the same if paid at either end. Goods addressed to PLATFORMS must be prepaid in every instance.

All About Freights

To save any misunderstanding with regard to freight, we print here full particulars on what goods we **do not pay** freight, as well as on what goods we do pay freight. Country customers must know that by paying freight, even on parcels of 50/- or over, we are doing more for them than we do for customers who live in the city. It would be no doubt an easy matter to put a little extra on to country customers, and then pay freight all round. But we do not consider that would be a fair deal; no country customer can say we charge them a penny more than we charge our city customers. It is, therefore, evident that when we pay freight to a railway station we are giving something to them which we do not give to our city customers.

Parcels of £2 10s. or upward, comprised of the following lines, are sent free of freight to the nearest railway station in New South Wales, or any port in the Commonwealth or Fiji:—

Drapery	E. P. Ware	Travelling Rugs
Boots	Laces	Gold Jewellery
Cutlery	Quilts, Blankets	Umbrellas

If your order for the above goods amounts to £2 10s., GRACE BROS. will pay freight to the nearest railway station or wharf. But if you want a small article—such as a gun or other article in the list on which we do not pay freight—included extra over the £2 10s., and provided the inclusion of the gun or other article did not increase the freight, then GRACE BROS. would allow it to be included without extra charge.

If you wanted your order sent by post, then GRACE BROS. would allow the same amount it would cost by rail or boat (or cheapest route), and any extra amount must be paid by the customer. For example if a parcel of £2 10s. or over sent by rail at a cost of 2/- was to be asked for by post at a cost of 3/6, GRACE BROS. would pay 2/- and the customer 1/6.

When we pay freight we reserve to ourselves the right to select the mode of transit.

We do **not** pay freight on the following and bulky goods of small value:—

Kitchen Requisites	Baskets
Household Ironmongery	Toys
Photo. Frames	Guns
Picture Frames	Rifles
Inks	Ammunition
Books	Saddlery and Harness of all kinds
Stationery	Trunks
Carpets	Paints
Portmanteaux	Builders' Ironmongery
Bedding of any sort	Artists' Material
Grocery	Wallpaper
Lollies	Bicycles
Sweets of any kind	Stoves
Crockery and Glassware	Hair (Transformation Empire Curls, etc.)
Sporting Goods	Lamps
Perambulators	Axes
Sewing Machines	Builders' Hardware
Tobacco, Pipes, etc.	
Blinds	

Consignments by Goods Train

Consignments should weigh 100 lbs. or more.

This system of transit, although slower than passenger trains, is the cheapest way, and permits you to order supplies of all kinds, and effect the greatest possible saving, as the cost of transportation on any one article when included in a general assortment of household or farm supplies is almost nothing. If, for example, the total freight charge on a consignment of general supplies, such as shoes, groceries, clothing, books, etc., is 5/6, the charge on any one item, the shoes, for instance, will not be more than a few pence, whereas, if the same shoes were ordered alone by either mail or passenger train, the charges would be 9d. or more, according to how far you live from our establishment.

Make your consignment weigh 100 lbs. or more, and you will secure the most economical rate. Every family needs sugar, salt, flour, etc., so if you only require 50 lbs. to 75 lbs. of general merchandise, include some grocery supply in your order as a "filler" to bring the total weight up to 100 lbs.

Let us suggest that you anticipate your wants as much as possible, and send us a big order once a month, or every second month, instead of sending small orders whenever you happen to want anything. Remember our prices must be lower than your home prices, so the more you buy the more you save. We can save you money on a small order, but can save you twice as much on a big one.

Minimum Charge.—The railroad rates are based on parcels weighing about 60 lbs., in which case the charge is figured according to the table of minimum rates. When a consignment weighs less than 60 lbs. they apply what is known as the minimum charge, which means the

least amount of money they will accept for transporting a light weight consignment.

This minimum charge ranges from 1/- to near-by points to 7/- to distant points.

It is poor economy to order only 60 lbs. of merchandise and pay the railway as much as they charge for 100 lbs., when a sack of sugar or salt, a case of canned fruit, a few books, or, in fact, any of the common household supplies can be included to make a 100 lb. shipment, which will be carried at the regular class rate as shown in the table.

Prepay Stations.—If there is no stationmaster, the station is called a platform, and freight must be prepaid. Estimate the charges to the best of your ability, but if you are in doubt be sure to make a liberal allowance and we will promptly refund any excess. At these platforms goods are liable to be stolen or damaged unless you make careful arrangements to have them cared for after they are unloaded from the train. The railways will not be responsible for any loss or damage. Don't fail to go or send for your goods at once when you are notified of their arrival at your station.

Overcharges.—If you have any reason to believe that you have been overcharged, we will gladly secure an adjustment for you. Accept the consignment and pay whatever the stationmaster demands, then send us the freight bill and we will have our traffic manager investigate, and any overcharge will be refunded. The freight bill is a paper the stationmaster gives you when you pay the charges, and must positively be sent to us, as we cannot do anything without it.

Overweight.—If you have any reason to believe that the weights shown on the freight bill are not correct, ask the stationmaster to weigh the goods before you take them from the station. If there is an error he must then correct it and make the proper charge.

Claims for Damage.—Always carefully inspect a consignment before taking it from the station. If anything is broken, scratched, or missing, if any boxes appear to have been tampered with, call the attention of the stationmaster to the difficulty then and there. Don't accept the shipment until the stationmaster writes a clear notation of the damage or shortage on the freight bill, showing the exact condition in which the goods are delivered to you. After stationmaster has made the notation showing damage, you may accept shipment and avoid storage charges. All our goods are sent out in first class shape, properly packed for shipping, so if any bad order exists when they reach your station it is the fault of the railway, and you should not be put off with any excuses, such as poor boxing, etc.

We will Adjust your Claims, provided you

1. Send us the freight bill with stationmaster's notation of damage.
2. Return our invoice (bill) showing the goods shipped.
3. Write us a letter explaining the nature of the damage.
4. Remember we can do nothing unless you secure the stationmaster's admission in writing of the damage.

How to Order

Use our Order Form blank if you have one; if not, plain paper will do. If you use plain paper please follow the general arrangement of the specimen order on this page.

Write your name and address carefully.

If your post office is different from your railway station or wharf, say so, and give name of both.

Say how much money you enclose.

Always write down the catalogue number of each article, and be sure give all sizes, colours or measurements. Remember that we cannot fill your order if you forget to give the size of shoes, hats, clothing, dresses, etc.

If there is no stationmaster at your station the freight must be prepaid.

Before sealing the envelope check your order over and be sure that—

1. Name and address are correct and plainly written.
2. Shipping point is given if different from post office address.
3. All sizes, colours and measurements correctly stated.
4. Postage has been allowed for articles to be sent by mail.
5. Exact amount of money enclosed in envelope is correctly stated, and enough allowed for prepaying freight if there is no stationmaster at your station. If you allow too much, we will return the difference.

Write all remarks or enquiries not concerning the order on a separate sheet of paper, although you may enclose all in the same envelope.

We will gladly supply order blanks at any time. Drop us a line whenever you need a new supply.

PLEASE WRITE DISTINCTLY.

GRACE BROS.,

THE MODEL STORE, BROADWAY, SYDNEY.

OUR GUARANTEE

Is that if Goods are not as represented we will exchange them or refund the money.

Suggestions to Customers.

- 1.—Always write your full name and address plainly.
- 2.—Cash must be enclosed to cover the cost of goods and freight on same, otherwise we are compelled to omit part of the goods.
- 3.—Always allow sufficient to cover all charges, for we will refund the balance with the goods if you ask for it.
- 4.—Unless you tell us not to do so, we send the nearest to your order if sold out of exact goods.
- 5.—When sending Bank Notes or Cash always register your letter. When sending Postal Notes take note of the numbers. Cross all Cheques to Grace Bros. Make P.O.'s payable at George St. West Post Office.
- 6.—When remitting by Cheque, please add 6d. to cover exchange.
- 7.—We always send goods by cheapest and quickest method, and study our customers' interests all the time.

NOTE.—Do any other members of your family order? If so, under what Christian name? It would help us if all future orders from your home were ordered under one name.

Note Carefully

Whilst at all times we will do everything in our power to adjust complaints, we do not hold ourselves liable for breakage of goods in transit; that responsibility rests with the carriers, and customers will please be sure that the goods are in good order before they take delivery. Once you accept delivery in good order and condition you have no claim for loss or breakage.

Crockery is packed by special packers, and claims for breakage cannot be allowed.

We will exchange or refund cash, provided the goods reach us in a saleable condition, carriage paid, and were not made to order, or cut to length.

Returned goods should always have your name and address inside, and by separate post kindly send us a letter giving reason for return of goods. Complaints of any irregularity or bad service will receive our very best attention.

When ordering goods please allow sufficient to cover all charges, as we do not allow goods to leave our premises unless the full amount is paid.

Omissions and Substitutions

Carrying as we do a very large stock of general merchandise, we are able to fill all orders just as they are received, with the greatest possible accuracy. Of course sometimes a greater demand causes some article to get sold out before a new supply comes in. Then, again, shipments go astray and upset our calculations; but as a general rule, we are able to execute the thousands of orders we daily receive just as our customers write them.

When, through unavoidable causes, we cannot supply an article called for, we do what we think best in your interests in one of the following ways:—

1. Omit the article and notify you.
2. Substitute a similar article at the price you allow.
3. Send the main part of your order, and if the nature of the missing article warrants, make a separate shipment of it later.
4. Delay the entire order for a few days when we know that the missing article will soon arrive. We never adopt this course unless we have every reason to believe that a day or two will not cause you inconvenience.

About Substitutions.—Substituting means sending one article in place of another that has been ordered. Many disgraceful tricks have been played on the unsuspecting public during recent years by unprincipled concerns, who substituted right and left with never a care for the interest of their trade.

Anyone of our 1,000 employees would tell you, if you could question them, that they are under the strictest orders never to substitute one article for another without the consent of his divisional manager, who is held responsible by the firm for any errors in judgment or lack of consideration of the customer's interests when making a substitution.

Simple Instructions re Receipt of Goods

If the Package does not reach you as soon as expected.

1st. Be sure you have allowed a reasonable time. We receive letters occasionally asking why an order has not been sent, and find that nine out of ten have already gone forward and will reach their destination before our reply.

2nd. Be sure that it is not at the post office; also please inquire of stationmaster before writing to us.

If Something is Missing.

1st. See if we have **charged** for the missing article—that is, whether it is in the bill. If not, we have omitted it intentionally, and a remark will be found at the bottom of one of our invoice sheets explaining. Our method of billing is to add up the items charged for on each sheet and carry all the totals on to the last sheet only. The amount you sent us is shown on the invoice, and the difference will be refunded if so requested, otherwise we place the balance to your credit against the next order.

2nd. If you find the missing item is charged and not accounted for on the invoice, write us and enclose the invoice sheets. Possibly the box or package may show evidence of having been tampered with in shipment, and the missing goods may have been stolen or lost.

In such case have the stationmaster note on your freight receipt that "goods arrived in bad order," and send this to us, together with the invoice sheets and a letter stating facts.

If you receive an Article which is not what you ordered.

1st. See if we did not explain the change by a remark on the invoice. Occasionally we are entirely out of an article exactly as ordered, and where we think it is to the customer's interest to do so, and to save disappointment, we substitute the nearest we have, being careful to send equal or better value.

2nd. If not, write us a description of the article received, giving the catalogue number of the article it most closely resembles, and tell us whether you are willing to keep it, and what adjustment will be satisfactory. Be sure to send the invoice sheets.

If you think you are Overcharged.

1st. Be sure you are comparing the prices with those in our latest catalogue. We often get orders from catalogues five or six numbers old, and remember that many articles are continually fluctuating in price. We always execute orders at the price the goods are sold at our counters.

2nd. If you find no explanation of the overcharge on the invoice, or if the error is one which is apparent—such as a mistake in extending prices, or carrying totals from one sheet to another—write us the facts, and be sure to enclose the invoice sheets.

If Goods do not give satisfaction.

Please return them with full name and address inside, and post to us a letter on the subject. On receiving them carriage paid we will refund the price charged if so desired.

If You Think Transportation Charges are Excessive.

We will assist you to get redress if you are entitled to it. Get the stationmaster to weigh it in your presence, and mark the weight on your receipt; then send this receipt to us, with a letter stating the facts.

Why We Emphasize Quality

Because **quality** is the all-important point to be considered in purchasing anything.

It's easy enough to slice a little bit off the **quality**, and a little bit off the price. If the purchaser considers the price only he may be pleased at first. But the quality is remembered long after the price is forgotten.

That is why we have kept our customers from year to year, more firmly believing in us as each order is opened.

REGARDING INSURANCE OF FURNITURE, CROCKERY, AND FRAGILE GOODS.

We are willing to insure safe delivery to port or railway station of goods from the following Departments, at rates quoted:—

Furniture	per package 6d.	Electro Plate	per package 2d.
Crockery	" 3d.	Lampware	" 2d.

INDEX TO GENERAL CATALOGUE.

In preparing this Index we have aimed to make it as simple and concise as possible. We would ask our customers to refer to the Index constantly, as it is a useful time-saver.

We have also prepared another Index, which we term a Supplementary. This Supplementary Index contains up to the time of writing lines not included within the pages of the General Catalogue. Should our customers require us to quote for any article not listed, they can rest assured of getting the Lowest Possible Prices.

NOTICE.—Our idea of this illustrated Haberdashery Price List is to enable our Country Customers to select small wares easily, and with equally same advantages as if purchasing at the Haberdashery counter. We guarantee all goods in this department to be of best quality and finish, also best standard makes, and full quantities guaranteed. All prices quoted are subject to fluctuations of the markets, and will only be advanced when absolutely necessary.

We trust this list will be kept for reference, and when ordering it is only necessary to quote article, number, size and price.

The **Ivy** NICKEL PLATED
SAFETY PIN.

MADE IN ENGLAND FOR
GRACE BROS. THE MODEL STORE
BROADWAY, SYDNEY.

The lower half of the advertisement features four rectangular panels arranged in a 2x2 grid. Each panel contains a detailed illustration of the Ivy Safety Pin from a different perspective. The top-left panel shows the pin from the side, highlighting its curved shape and the decorative 'Ivy' logo on the clasp. The top-right panel shows the pin from the front, emphasizing the clasp mechanism. The bottom-left panel shows the pin from the back, and the bottom-right panel shows the pin from a slightly different angle, possibly the other side of the clasp. The illustrations are rendered in a detailed, engraved style with fine lines and shading to show the texture of the metal and the intricate design of the clasp.

Pabz

A vintage matchbox label with a cream-colored background and a dark border. At the top, the text "MADE IN FRANCE" is printed in a serif font. Below this, there is a row of 12 match heads, each with a dark, textured surface. Underneath the match heads, the text "MADE IN FRANCE" is printed in a stylized, outlined font. At the bottom, there is another row of 12 match heads, identical to the ones above.

EPINGLES FANTAISIE

Qualite Supérieure

A large, dark, circular object, possibly a ring or a large hole, centered on the page. It has a rough, textured appearance, suggesting it might be a scan of a physical object or a stylized graphic. The interior of the circle is a light, uniform color, contrasting with the dark, irregular border.

Ribbon Embroidery.

For some considerable time past ribbon embroidery has been steadily on the increase. Very little authentic information is to be obtained as to its origin. The most likely explanation is that it was introduced from the East. In the reign of Queen Anne silk was imported in large quantities into England, and afterwards appeared the damask ribbon. In France this style of embroidery was in great requisition. After enjoying a long term of popularity, ribbon embroidery for a time waned, until some few years ago this fascinating work came again to the face, and has since then never quite died out. The first really important advance in this interesting branch of needle work was introduced by the Giant ribbon. Flower ribbon, and Peacock ribbon. The Peacock ribbon was, perhaps, the one that met with the most instant popularity; the results to be obtained by its use are so marvelous. This flower, above every other, can be made to absolutely counterfeit nature and at the shortest distance, if well worked it is almost impossible to distinguish between the real and the artificial. This is a fact which will be admitted as entirely due to the peculiar characteristics of the ribbon, with its vivid line of colours showing on the upper edge, exactly reproducing the distinctive marking of the natural flower. The Pompadour ribbon embroidery still holds pride of place for beauty and artistic merit, and for a certain class of work nothing else is so effective. Wherever the use of decorative

embroidery is possible ribbon work may be satisfactorily employed with good and artistic results: it is a class of work much more quickly accomplished than the ordinary silk embroidery. A whole flower may be worked with less than a dozen stitches compared with the many stitches required to obtain the same effect in silk embroidery, consequently the advantages to be obtained by the adoption of ribbon embroidery when time is a consideration is apparent. The newest ribbon for embroidery is the Florentine ribbon, a narrow ribbon with the upper edge fluted, which is sewn on the design. Mignonette and heliotrope look charming thus embroidered.

DESIGNS FOR RIBBON WORK.

Ribbon work is a work in which ribbons of various widths and colours are used to embroider the flower instead of silks or threads. There are several varieties of ribbon used; small flowers, such as forget-me-nots, daisies, miniature roses, etc., being worked with the narrow China ribbon, which is about an eighth of an inch wide; larger flowers, such as poppies, marguerites, wild roses, etc., are worked with rainbow or giant ribbon. The picotee ribbon is used only for the picotee, and is about $\frac{1}{8}$ in. wide, and has a serrated edge on one side only; the other side being plain, is gathered, and the ribbon sewn on to the design. The flowers of the design are worked with the ribbon; the leaves being worked either with ribbon or silk, and the stems with silk. We have a large stock of satin, silk, or canvas designs, suitable for ribbon work. Designs commenced in ribbon work for 1/6.

SILK EMBROIDERY.

The art of dyeing silk has reached such perfection that almost any colour in the natural flower can be obtained. It must be remembered that neat and accurate work can never redeem ill-chosen colours. The worker must not forget that the proper blending of colours depends entirely on the stitches. If the stitches are not taken in the right direction, one cannot blend the shades with success. The long and short stitch is the most perfect for natural flowers. The stitches should take the same direction as the lines in the flowers or leaves. The length of the stitches are left to the judgment of the worker, and should be made according to the space to be filled. We are only able to illustrate a few of the designs, of which we have a large and varied stock. Country orders at all times receive our careful attention, and we are pleased at any time to help with suggestions or information concerning needlework. We also commence any description of needlework. We have a very large assortment of needlework.

IMPORTANT NOTICE.

Grace Bros. beg to call attention to the general practice of wearing gloves too small. The result is an increase in complaints, which, in the great majority of cases, do not arise from any defect in the gloves, but simply from the overstraining to which they are subjected. While meeting all legitimate claims with the utmost liberality, they can only exchange or credit broken gloves on the condition that they have not been worn, forced on too large a hand, or otherwise unfairly used.

All Gloves should be turned over an inch below the opening before being drawn on the hand.

All communications to be addressed to the firm.

We pay Postage on all Gloves throughout the Commonwealth.

Embroidery and Embroidery Insertion.

With the universal use of Embroidery, we feel
we must give prominence to this very serviceable
section of our Lace Department. The beauty of
these goods is only surpassed by the exceptional
wear obtained, and for our sunny Australian cli-
mate nothing could be more suitable for Dresses,
Lingerie, and Trimming.

Manchester Department.

When purchasing Calicoes or Sheetings you want the best value for the expenditure you are making, and therefore you cannot afford to ignore the claims of "The Model Store," the recognised centre for unapproachable values in these goods.

Every article on this list is here on the ground of sound commercial value, and can be thoroughly recommended.

SPECIAL NOTE.

From the 1st January, 1910, an advance in the prices of Boots and Shoes will take place.

At time of writing we cannot tell exactly what it will be, but, roughly speaking, it will be about 1/4 $\frac{1}{2}$ to 2/- in the £.

Our Customers can, however, rely upon GRACE BROS. to give them the very keenest quotations for every line.

SANATIVE "PUSH FORWARD" UNDERWEAR.

OUR REGISTERED BRAND.

Our registered "Push Forward" brand of Natural Wool Underwear is guaranteed absolutely unshrinkable, and all pure wool. Every article bears our Trade Mark and also our guarantee to exchange any article that may shrink in the washing. The superiority of wool as a material for clothing, to be worn next to the skin, has been accepted by all medical authorities, and is now unquestionable. The first and most important point is that wool is a slow conductor of heat, and the second is its capacity for absorption of moisture. The reason for a heavy cold in summer is often found from wearing cotton garments next to the skin; the moisture from the perspiration gives the material a cold, clammy effect, which often strikes a chill at the slightest variation of temperature; but in wearing woollen garments next to the skin this is entirely obviated.

The ideal clothing for hot days in summer is the light-weight
"PUSH FORWARD" SANATIVE UNDERWEAR.

One of the chief objections to wearing woollen underwear is the irritation caused to sensitive skins. This objection will not be found when wearing our best quality Sanative Underwear, that harsh, grabby feeling is caused by the use of coarser wools. The only other objection to wearing woollen underwear is its liability to shrink; but by a patent process this has now been prevented. So certain are we of the effectiveness of this process that we will replace any garment bearing our guarantee should it shrink in the wash.

We would ask you to see that the instructions for washing these goods are faithfully carried out. The instructions are—

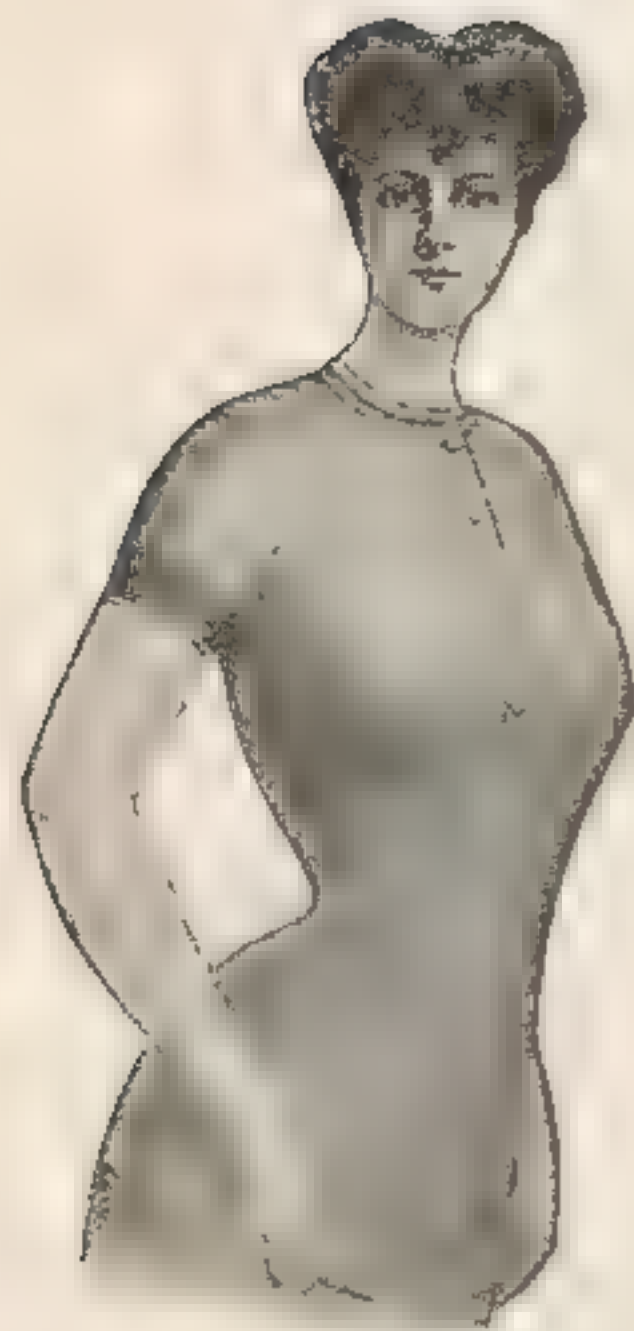

Do not Boil nor Rub.

Iron while still Damp.

1. Never begin to wash woollens unless they can be finished right off. If woollens are kept in soak or damp all night they will inevitably shrink.
2. Water must be warm, not hot (never above 100 deg. Fahr.) Make three gallons suds with 1½ oz. best soap. Do not leave clothes to soak, but work them about, pressing through hands and **not rubbing**. Pass them through wringer, and rinse twice in clean tepid water, passing again through wringer. **Stretch to shape** and hang to dry. Iron when half dry, and **stretch to proper size while under iron**.
3. Wooden or metal wringers are liable to force buttons through any material, and care should be taken to avoid injury from this cause. Rubber wringers are preferable.

Hitherto all our natural wool underwear has been made in England, but this season they are being made by an Australian manufacturer who knows every requisite for turning out these garments, and now these goods are of Australian wool, made in an Australian factory, by Australian workers.

WE WOULD LIKE YOU TO TRY THEM.

CORSETS.

NW133.

Model N—Our Special Reduso Corset, for large women; has a soft unboned apron extension, which reaches down the abdomen and hips, moulds the overdeveloped proportions into graceful outlines, thereby avoiding the necessity of binding straps or harness-like devices hitherto thought necessary in the construction of corsets for fleshy women. This corset is guaranteed to reduce the abdomen from 21in. to 41in. In strong white coutil, boned with reliable rust-proof wire bone, does not break, extra strong hip and front suspenders, 24in. to 36in., 16/9 pair.

NW134.

Model K—A perfect model for average figures, cut short at back, with low bust, and extra long over the hips and abdomen. The lines of this corset follow the contour of the figure, and give a snug, smooth fit over the skirt, and so produces that very modish effect now so essential with the fashionable skirt. Made of the finest white French coutil, boned with new reliable rust-proof wire bone, does not break, has three strong steels over the hips, 20in. to 30in., 8/11 pair. **Special.**

NW135.

Model B—A dainty corset, of grey and white batiste, low basted, with short box hips, for slender figures and young women, front suspenders, boned with reliable wire bone, cannot break, 19in. to 26in., 5/9 pair.

As new designs are constantly arriving, we must ask you to allow us to substitute should any number be sold out.

NW136.

Model A—For average figures, medium in bust, long over hips and back; in strong grey jean, front and hip suspenders, 19in. to 30in., 4/6 pair.

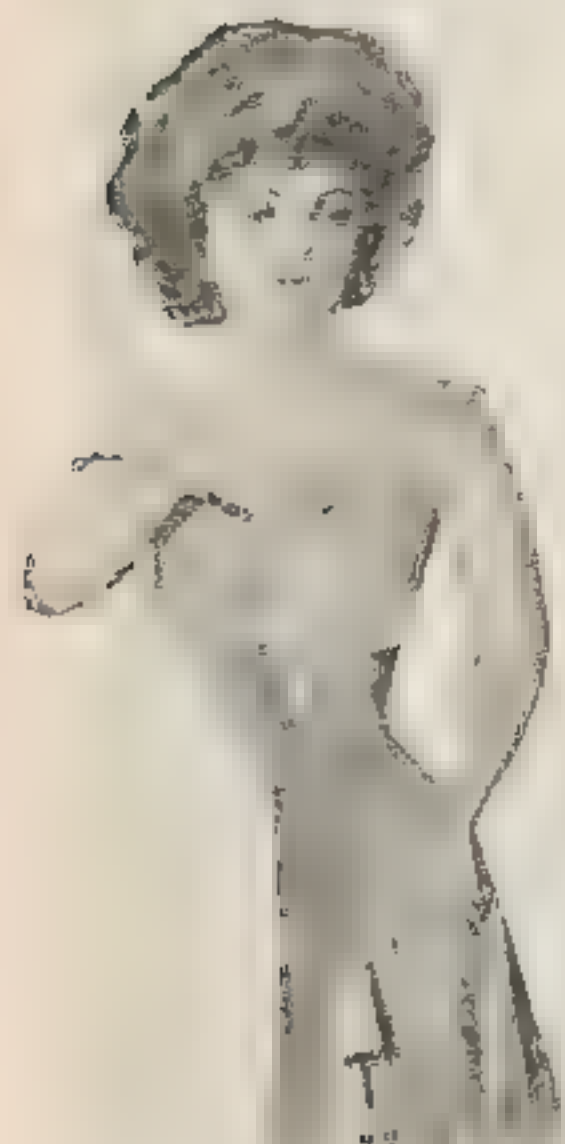

NW141.

Model O is a white coutil corset, very long over hips, abdomen and back, with a short girdle top effect above waist, with front and side suspenders, 19in. to 30in., 5/9 pair.

Model P—A white corset, for tall, long-waisted figures, in accordance with the very latest fashion demands, high above the waist line, with great length over hips and back, in excellent quality coutil, hip and front suspenders, 19in. to 30in., 10/9 pair.

Model Q—A dainty coloured broche corset, medium height in bust, with long hips, and comes well down over the abdomen; has front and hip suspenders, 19in. to 30in., 15/6 pair.

Model R—Designed for the tall, well developed figure, high above the waist line, with long sloping back and hip lines. The material is a splendid quality white coutil with front and hip suspenders, 19in. to 30in., 18/9 pair.

NW137.

Model M—A dainty corset, in white and grey coutil, for slight and medium figures, low in bust, and extended hips, front and hip suspenders, boned with reliable rust-proof wire bone, does not break, 19in. to 26in., 8/6 pair. **Special.**

NW138.

Model J—For heavily developed figures, the reverse gores running backward restrain undue development of the abdomen; the back is extra long, boned with the new reliable rust-proof wire bone, does not break, wide elastic suspenders on front and hips; in grey and white coutil, 21in. to 30in., 10/9 pair.

NW139.

Model H—Specially designed for heavily developed figures. The special feature is the closely-stitched fan front, which holds the abdomen firm and flat; in grey or white heavy coutil, boned with new reliable rust-proof wire bone, does not break, has broad front and hip suspenders; white, 20in. to 30in.; grey, 20in. to 36in., 8/6 pair.

NW140.

Model D—This model is for medium full figures, low in the bust and very long skirted. The material used is good strong jean, in either white or grey. It is boned with the new wirebone. A gores are cut on the bias, and the top is nicely finished with lace and ribbon. Hose supporters are attached to front and hips. Can be had in sizes from 19in. to 30in., 5/9 pair.

CORSETS.

NW142.

The "Star," a very short white batiste corset, well boned, front suspenders, 19 in. to 26 in., 2/11 pair.

"Ophir," a similar corset to the "Star." In strong creme coat, with front suspenders finished heliotrope ribbon and stitching, 19 in. to 26 in., 2/11 pair.

"Selmore," a dainty grey embroidered corset, front suspenders, 19 in. to 24 in., 4/11 pair.

"Silvex," a dainty white embroidered corset, front suspenders, 19 in. to 26 in., 5/9 pair.

NW143.

W.B. Erect Form, 426, a splendid corset for medium figures. The special feature of this corset is the extra band of material at lower edge of corset, to keep the figure firm in accordance with the new style of dress, front and hip suspenders, in strong grey coutil, 20 in. to 36 in., 8/6 pair.

W.B. Erect Form, 916, grey coutil. For average and full figures, low in bust, long over hips, front and hip suspenders, 19 in. to 30 in., 5/9 pair.

W.B. Erect Form, 445, for fully developed figures. In grey coutil, new transverse seams, well gored, very long on hips, front and hip suspenders, 20 in. to 36 in., 8/6 pair. A great favourite.

NW144.

DIRECT FROM OUR FACTORY.

Our Famous 10/11 White Lawn Costumes.

The abundant measure of prosperity which our factory enjoys can be attributed primarily to our ideas of merchandising. We believe in maintaining a reliable standard of quality, one price to all, to buy for as little as we can, and to sell at the lowest possible prices; to be earnest, honest and truthful in all we say and do, and by our deeds we shall be judged. When we started the season we decided to give such values in these two Charming White Costumes as would make our factory famous. They have done so. We have sold even more in the two months that have gone than in our most sanguine moments we anticipated. And we really want to sell them, for they are of such splendid value that every one sold means a pleased customer, and that is what we want. Pleased customers are our best advertisement.

GRACE BROS. make these two Costumes in their own factory under such circumstances as to be able to offer them at the exceptional prices stated. GRACE BROS. know these Costumes will be most popular among their customers. An exceedingly large purchase of lawn at an exceptionally low price enables them to give you such value. The orders received from the country for these Costumes are filled direct from the factory, so that every Costume goes clean, new and fresh to the buyer.

Please tell your friends about these Marvellous Values. They will thank you, and it will help us give you better values still.

You know these Ladies are Stylishly Dressed,

And Their Clothes
Fit them Perfectly.

You will agree with us that it is what a woman wears which gives her the charm of being well dressed. It is wholly a matter of her clothes—How and Where She Buys Them.

And so with these girls, they are beautifully dressed—And it Can be You.

You can have any design for your Costume this Spring, and have it made to your own measure from a large choice of materials. Think of it! Wouldn't you like to look as well dressed as these girls?

If any garment you buy from us does not please, send it back at once, and we will refund your money.

AN IDEAL WEDDING COSTUME FOR £3/3/-

It is the wish of most young ladies to have a real wedding—that is, a real Bridal Dress, with Veil and all complete, made, if possible, in the best manner. But all are not circumstanced as to be able to lay out a large amount on a Wedding Frock. GRACE BROS' factory comes to the rescue in this case, and are able to offer a Charming Bridal Dress at a price which will meet the purse of almost every young lady about to be married. This garment is MADE TO ORDER in our own factory under the personal supervision of a First-class Dressmaker, who has made a specialty of country order work. Read carefully the detail given below:—

This Charming Bridal Costume is made of white Jap. silk. The skirt is cut very full; has a panel of tucks, with tucking to match at foot. The bodice is trimmed with applique, and is relieved by an all-over lace front, with a smart V. of net, finished with silk tassels. The sleeves are also tucked (match skirt), and are finished with Val. lace. We are able to supply this charming costume at the exceedingly low

OUR FACTORY'S SPECIAL.

This Very Smart and Popular 15-Gore Sunray Pleated Sicilian Skirt is the best value we have ever produced. The Sicilian we use is of a quality that will give the maximum of wear, combined with the lowness of price; in fact, no Sicilian sunray skirt can be relied on like this one, and the pleating is done expressly for us, and is guaranteed to last considerably longer than others. The process of sun raying, as employed by our maker, does not in any way affect the quality of the material. We can do this splendid skirt in the following colours—cream, navy, black.

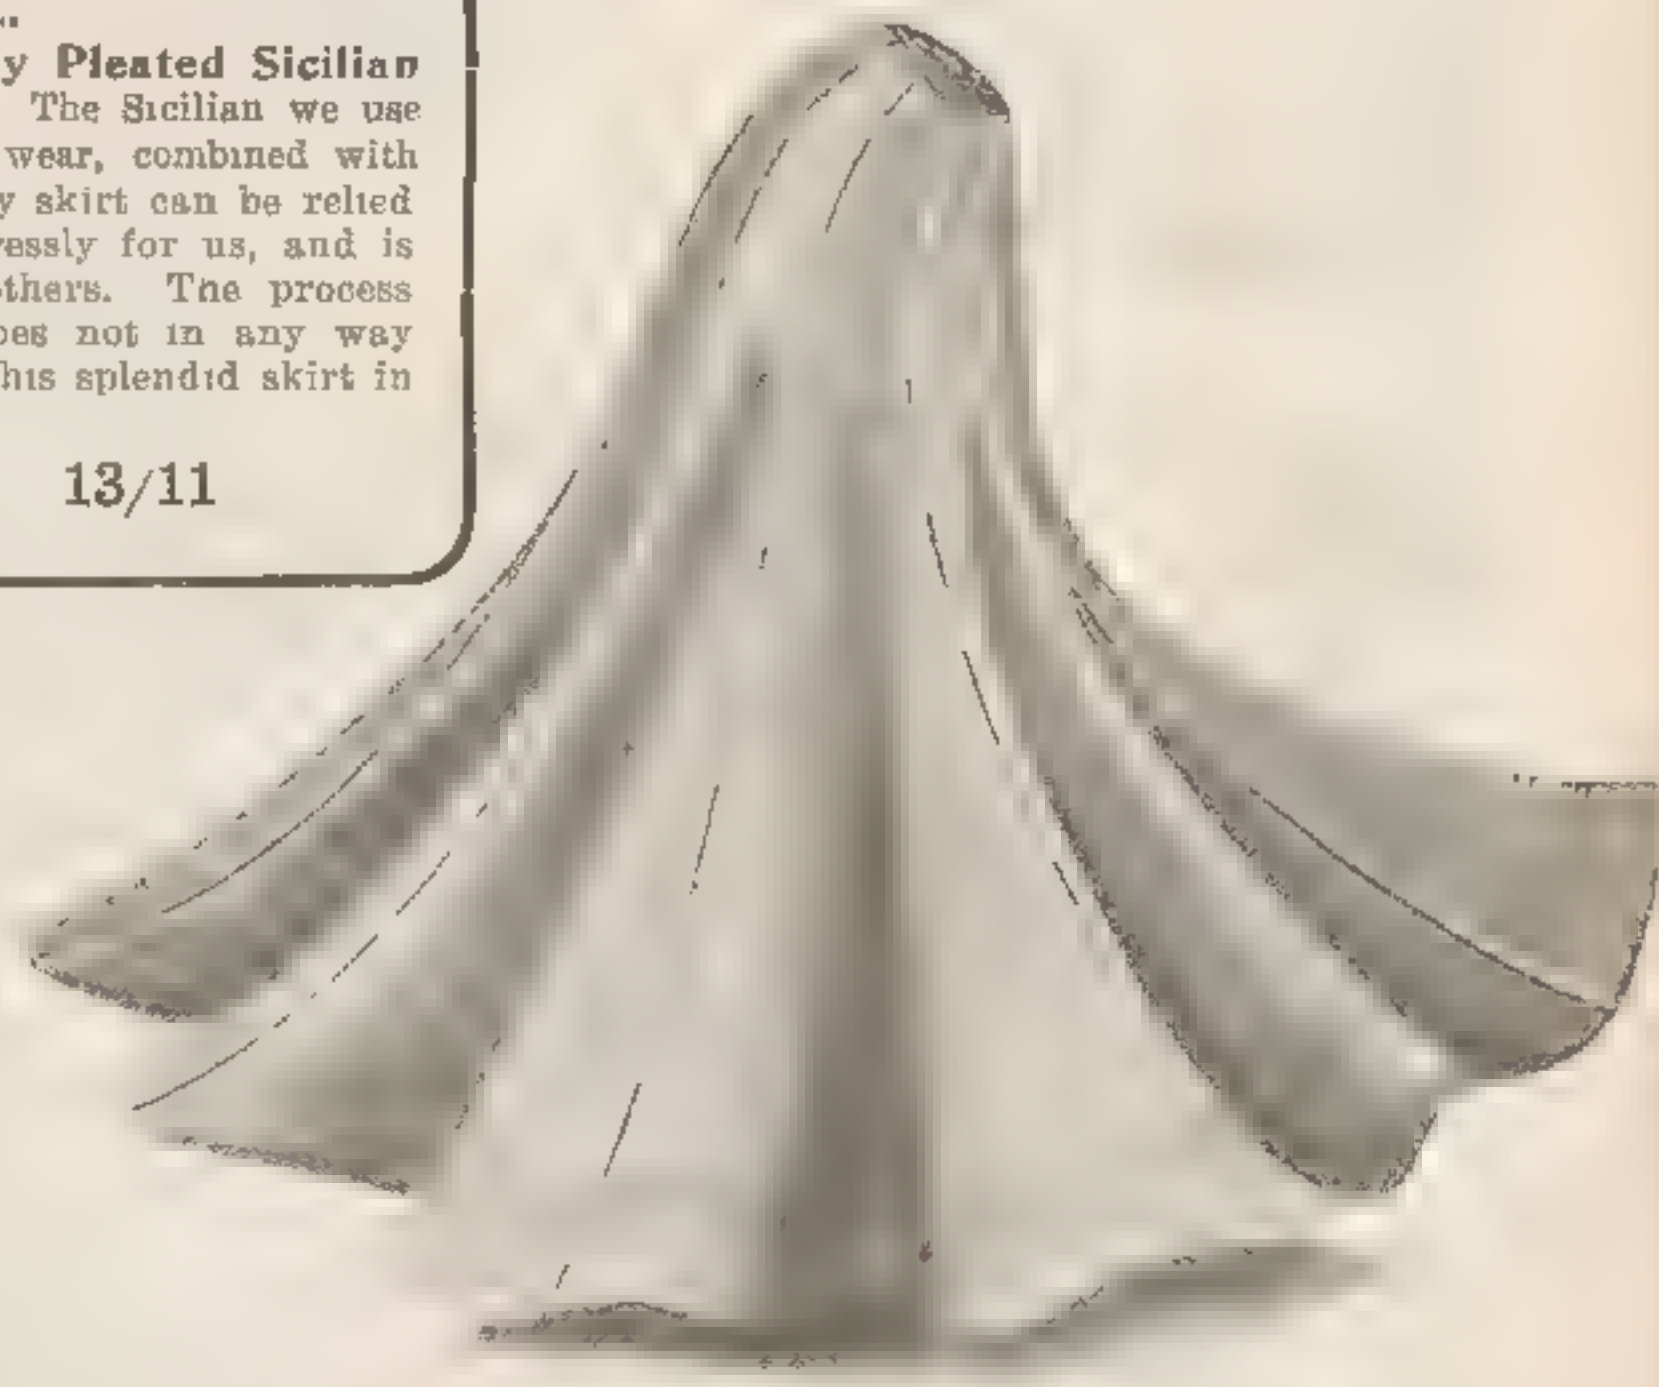

Price 13/11
Postage, 1/- extra.

MN810.

A White Muslin Skirt of undoubted merit, made in 9-gore model, well stitched, and tucked at foot, in a good Organdi Muslin. We recommend this skirt as extra special value.

THE NEW SKIRT.

Direct from our Factory.

"In the simpler type of dress, particularly in the short-skirted one, **Moyen Age Styles predominate.**" This is what we read in the "Dry Goods Economist" for 17th July, 1909, and when we tell you that this book is the most correct fashion journal in the world, it will be seen that the words written are not to be lightly passed over. Here we illustrate **The New Moyen Age Skirt**, the Newest and Most-up-to-date Skirt now being shown for this season, and when you know it is made in our own factory—from materials which we guarantee, at a price which cannot be approached—you will surely order one.

In **White, Navy, Black, Cream, or Brown Sicilian**, as illustrated, with knife-pleated skirt, well shaped at hips, made in our best manner, of a good quality Sicilian.

OUR 6/11 SUMMER SPECIAL.

Direct from our Factory.

We are offering special value in Summer Costumes, direct from Our Factory to Your Home. The designs are simple, but effective, and as we make up the material ourselves we know the making is right. These garments are stocked in three sizes:—Small Women's, Women's and O.S. Women's, and we cannot alter to measure. The illustration shows the very effective design of the Skirt and Blouse Style, which we are making up in three classes of materials:—In **Navy and Black Prints**, with white designs. In **White and Black Delainettes**, with spot and stripe designs in various colours, at the exceedingly low price of 6/11. (Postage, 6d. extra.)

N.B.—Garments required TO MEASURE will be charged 2/- each extra. All Garments required larger than 28in. waist, or 42in. length, will also be charged 2/- extra.

Inexpensive Hats.

The climate of New South Wales permits the use of MUSLIN HATS practically throughout the year. There are a great many things to recommend them for use, but we only call your attention to three:—

1. The good quality of the Muslin.
2. They will not damage with sun, rain, or dust, owing to the way they will wash.
3. The cheapness and style, being very useful for school wear.

You cannot go wrong in ordering one of these with your next order, as they are the most serviceable Hat we sell.

Flower Department.

We are confident that in our Flower Section will be found the largest assortment of artificial flowers in Australia—the values we will leave you to judge. We also have a stock of Pot Plants, which we are daily adding to, but the major portion of our display is in Millinery Flowers, and in this line we claim to hold a positively unique position, simply because we are determined to hold the finest and fullest selection procurable.

The queen of flowers, "the rose," is our strongest suit. We have Roses Unmounted, Roses in Picquets, and Rose Trails, Bebe Roses, Moss Roses, Wild Roses, La France Roses, American Beauty Roses, in fact, we have artificial representatives of nearly every rose that can be found in the florist's catalogue.

We are now having roses made in Sydney to suit the prevailing fashion; the colours are splendid, and the finish is equal to the imported article. (See illustrations OH88, OH89, OH90, and OH91).

We also have one of the best and largest stocks of Bridal and Confirmation Wreaths and Sprays for the dress.

Send your order to us for Millinery Flowers or Bridal, and we can give you every satisfaction. Should the actual flower you want be sold out, we can always substitute and so meet your request.

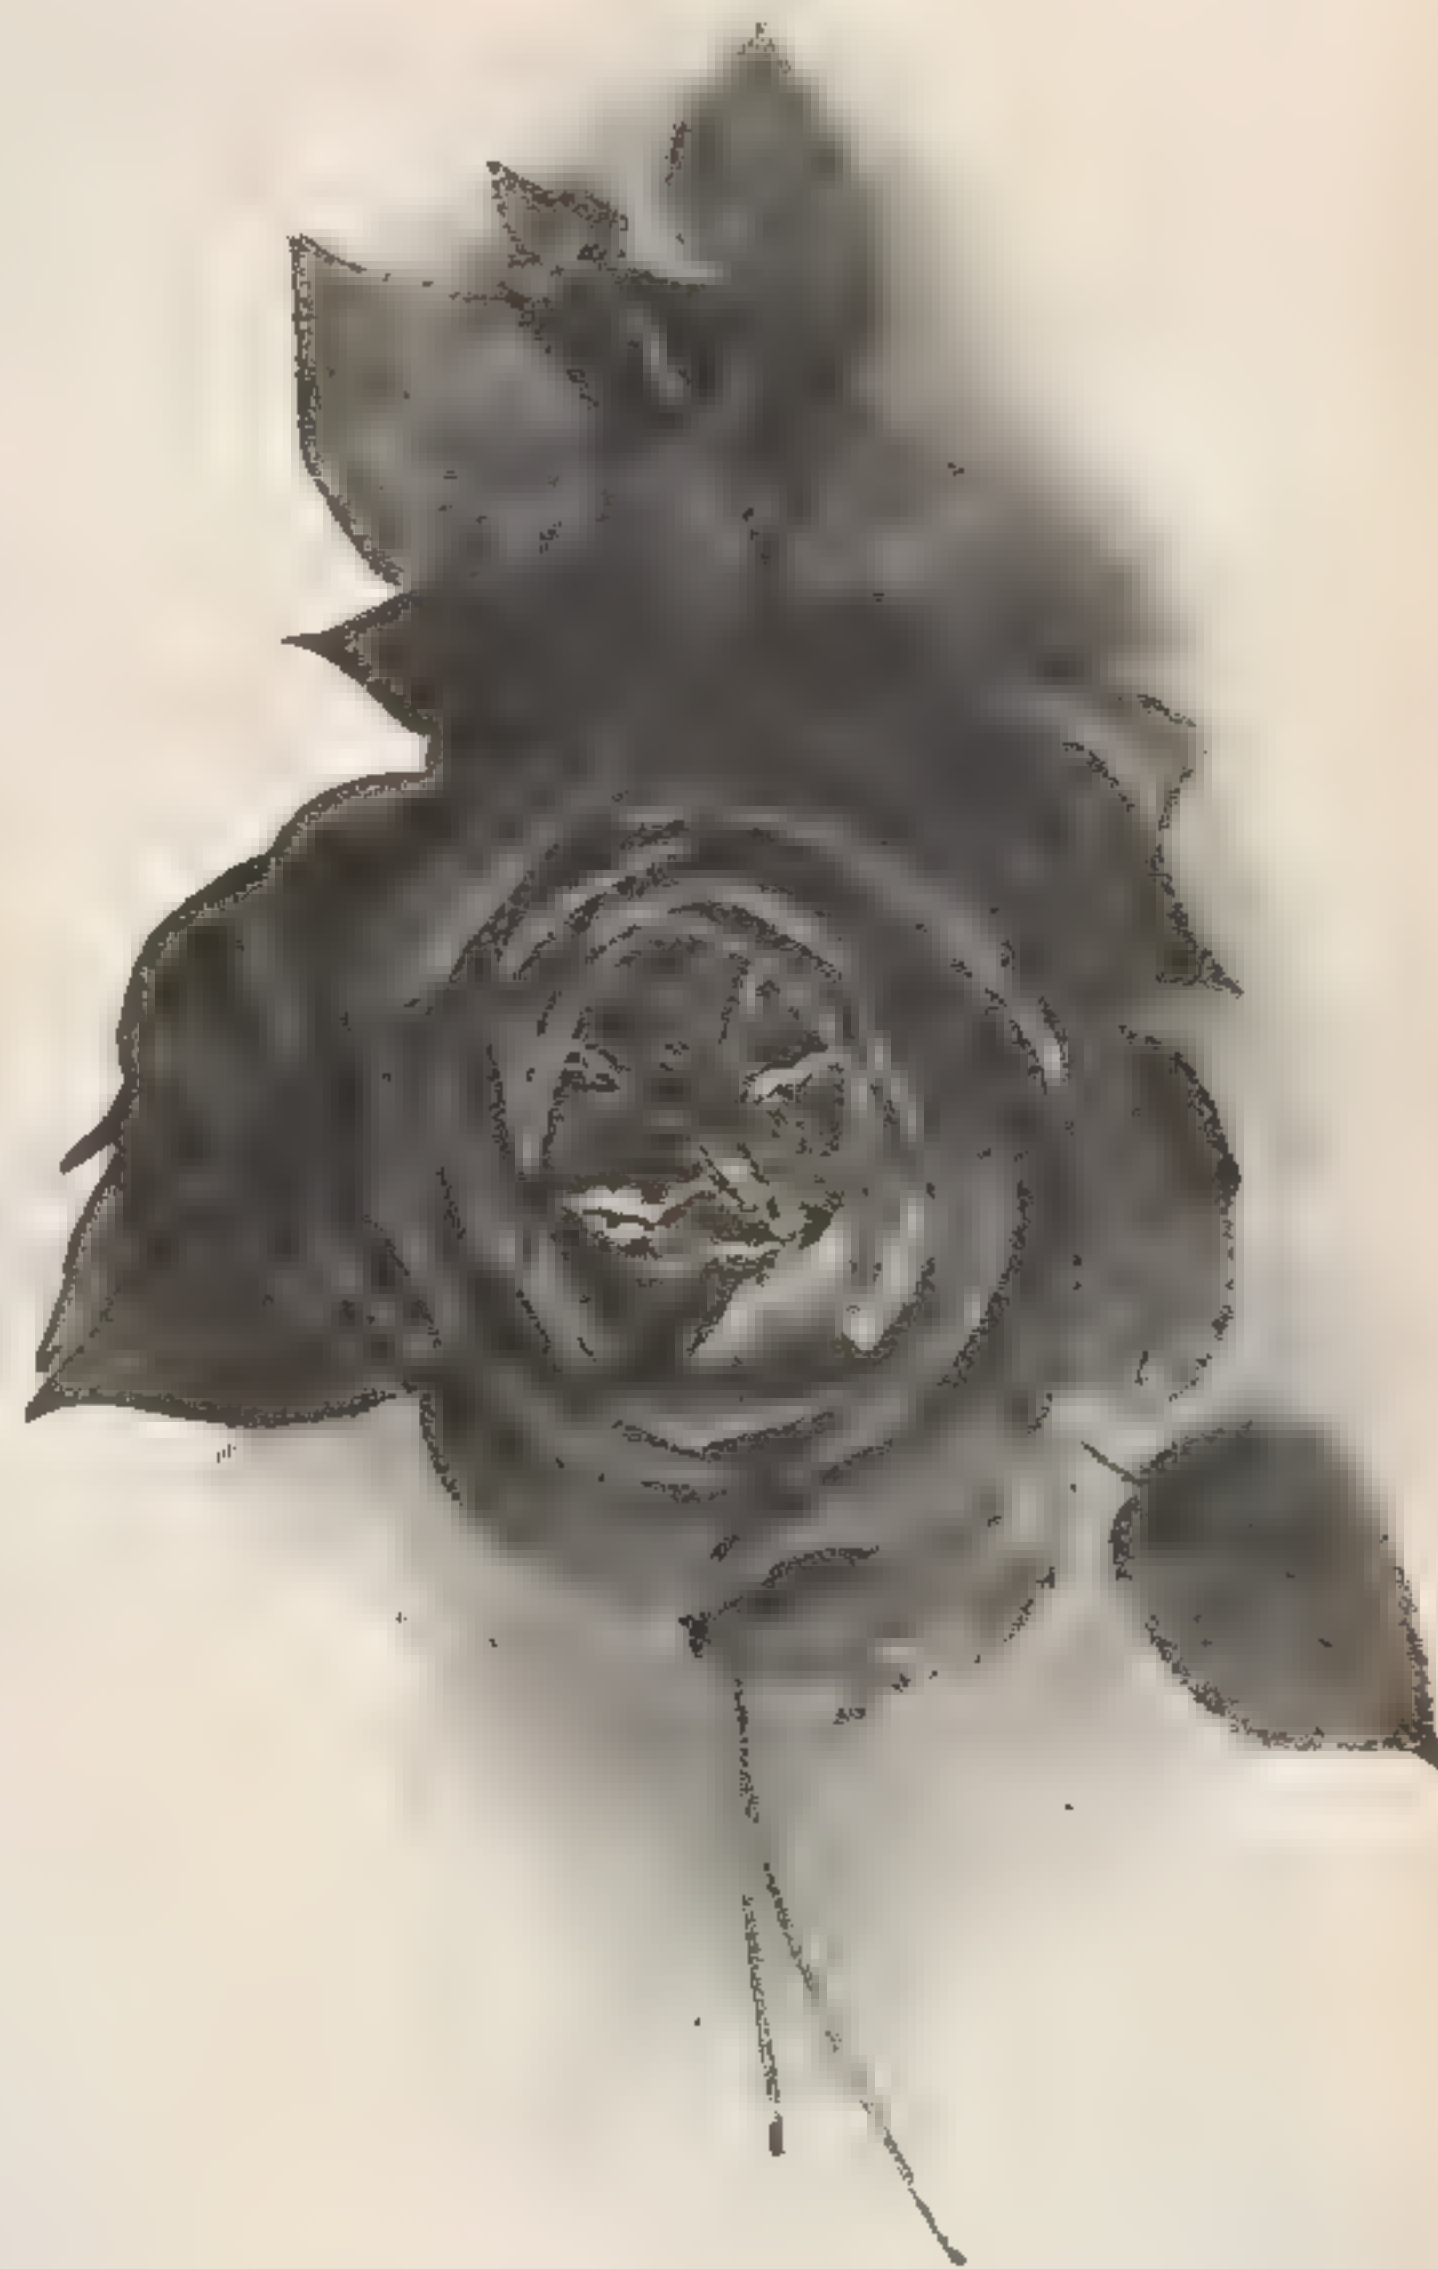

IMPORTANT.

It must be fully understood that as the sprays these illustrations represent get sold out, something newer will take its place, and we shall substitute the nearest unless instructed otherwise.

Lilac, 2/11 and 3/11 per spray

Ladies' Hairdressing Department.

The styles of Millinery during the past few seasons have necessitated a very full dressing of the hair. It has been necessary to fluff the coiffure up to fill in under the brim.

This accomplishment has been impossible to many women by reason of lack of sufficient hair. To resort to the posticheur is only natural, and Grace Bros.' Hairdressing Department places a semi or full transformation within the reach of every woman. We have a most up-to-date Saloon, and quote the following prices for ordinary colours only:—

Light and Grey shades are charged extra.
We can match any colour if a small tuft is sent to us.
Postage on transformations, etc., is about 6d. each.

OUR HAIR WORK IS UNDER THE PERSONAL SUPERVISION OF MONS. BONNET, the Celebrated Parisian Posticheur.

OH116.

"La Perfection" Transformation, 40/-.
"La Perfection" Semi-transformation, 20/-.
OH121.

Our Specialty.—The "Universal" Transformation, 40/-; can be dressed in any of the styles illustrated

OH124.

Tails and Plaits, all hair, 5/6, 7/6, 10/6, 15/6, etc.

Our reasons for Low Prices are founded simply and securely on the magnitude of our business.

The styles of Hair Dressing change with the styles of Millinery, and the present vogue of Droop Hat necessitates a very full dressing of the hair all round

Some ladies are not naturally supplied with an abundance of hair, and to them we offer these transformations as an aid to Nature.

Bear these points well in mind:
We cannot exchange hair work of any description.
Light and Grey shades are charged extra.
We can match any colour if a small tuft is sent to us.
Postage on Transformations, etc., is about 6d. each.

The "Broadway" Transformation, 30/-

Semi Transformation, 15/-. Light hair and grey hair are charged extra. Puffs on top and sides are not included.

Le Parfait.
OH117.

This Transformation is made of Natural Wavy Hair, with soft fluffy hair in front. It is the latest creation of Mons. Bonnet. It can be arranged for morning or evening wear. With the "Dudley" Cluster it makes an entire headdress.

Walnut Hair Stain, 3, 3 bottle; by post, 4/-.

Bronzyne, for preventing hair getting dark, and brightening fair hair, 2/6 bottle; by post, 3/3.

Petrolyne, for giving a beautiful gloss to the hair, preferable to brilliantine, 1/- bottle; by post, 1/4.

OH125.

The "Dudley" Cluster of Curls, consisting of soft natural curls, to place on the top of the head. A most becoming adjunct to the coiffure, 20/-.

OH118.
Empire Curls, 5/6.OH122.
"Empire" Puffs, 3 for 3/-; extra large set of six, 5/6.

OH120.

Our Specialty.—The "Broadway" Transformation, 30/-. Can be dressed in any of the styles illustrated above. Semi-transformations from 15/-.

OH123.

Switches, short stems, 5/6 each, others 7/6, 10/6, 12/6 upwards.

We stock all kinds of Grease Paints, Theatrical Goods, etc., Pads, Masks, Noses, Moustaches, Beards, Gold, Silver, and Diamond Powders for the Hair, etc.

Grease Paints, 6d. each

Pads, 4 1/2 d. upwards.

Fibre, for making Beards, Pads, etc., 5 1/2 d. per yard.

Spirit Gum, 4d.

Pencils, for Eyebrows, 6 1/2 d. and 7 1/2 d. each.

Rouge, etc., 6 1/2 d. upwards.

"EUKOSMA."

We would like to draw the attention of our Customers to the new Hair Restorer, "Eukosma," prepared from the original recipe of Dr. Carl Fischer by his nephew, Pierre Bonnet. It is invaluable for promoting the Growth of the Hair; it is a specific for the Eradication of Scurf, which is the principal cause of the Hair falling off and getting thin; it is a First-class Tonic, strengthening the Roots of the Hair, and thereby inducing a Vigorous Growth. It will not make the Hair grow where the Hair has fallen off with the Roots, but will stimulate the Skin of the Head, and if there are any Roots left, will so strengthen them that the Hair will grow Thicker and Stronger. There are two numbers, No. 1 for Dry Hair, No. 2 for Moist. When ordering, please mention which one is required. The price is 2/6; by post, 3/3. When using "Eukosma" be sure to rub it well in with the fingers into the Scalp in the morning.

Ladies' Hairdressing Department.

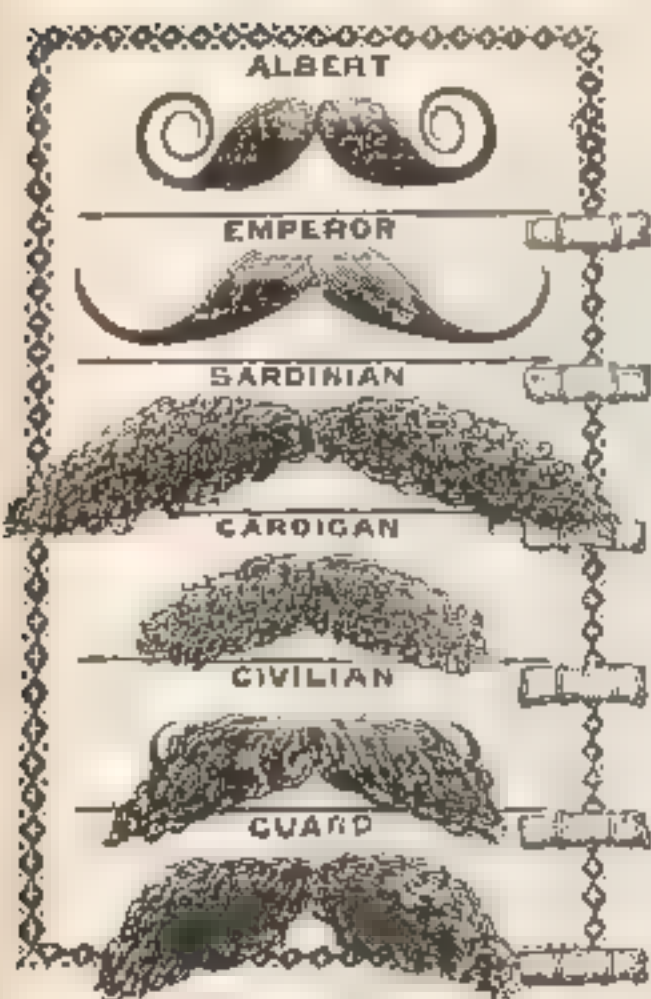

WE GIVE SPECIAL ATTENTION TO ORDERS SENT BY POST.
Many heads of hair run darker at the root than at the tip. It is therefore misleading to cut off an inch or two from the end, as that does not usually represent the colour of the main portion of the hair.

OH126.

Pompadour Fringe. Price, 15/-.

OH129.

Couvrette of Long Straight Hair, to mix with wearer's own hair. Can also be attached to pad. Price, 5/6 and 10/6 each, according to thickness.

OH132.

Moustaches, 6½d. to 1/- each.

OH127.

This illustration shows the New Cone Pad, either for dressing one's own hair in puffs, etc., or for placing false hair on. Price, 7½d., 9½d. each.

OH136.

Domino Masks, for men, black and colours, 6½d. each.

The Charm of the Latest Coiffure.

In these days when picturesque fashions so generally prevail, it is only natural that the mode of the coiffure should necessitate something of a correspondingly artistic description. Stiff and formal fashions in hairdressing have long since been relegated to the background, and at the present moment the latest styles of coiffure for the coming season are of the highest and most informal kind. The accompanying illustration represents one of the latest and most attractive creations of Monsieur Bonnet. Nothing but naturally wavy and curly hair is employed in the making of these universal transformations, and, as a natural result, they can be worn even in the dampest weather with the assurance that they will always retain their pristine freshness. The Universal Transformation can be dressed literally in a dozen different ways to suit the exigencies of morning, afternoon, or evening dress. The price of the Universal Transformation is 30/-; postage, 6d. extra.

Note Particularly.—We cannot exchange hairwork of any description. Light and grey shades are charged extra.

GRACE BROS.' BOOT DEPARTMENT.

THIS catalogue aims to represent to you some of the styles and qualities stocked by us in our Boot Department. All are fully described, priced, and numbered. Those lines that are not illustrated have a true description to them, so that you can depend on getting exactly the shoe as written. It is our endeavour to give you thoroughly reliable and up to date shoes at moderate prices, and we feel sure that a perusal of this book will convince you that we have just the thing you want at prices to suit you. We carry a large and well assorted stock of footwear in all the latest shapes, styles, and colours in Ladies', Men's, Children's, and Infants' Boots and Shoes, and beg to assure you that, if it is not convenient for you to call, an order by post will receive the same attention from us as if you were here personally to give it. The illustrations in this book are taken from photographs of goods in stock.

Latest Shapes and Styles.

BOOTS and SHOES.

Quality Guaranteed.

Ours are regular standard makes of footwear from the best factories, and are sold by us at low prices simply because we buy in great quantities direct from the manufacturers, and sell them to the wearer without asking him to pay the usual shoe store expenses and profits. We are among the largest shoe dealers in the State, offer the most varied assortment of materials, styles, and colours, and carry on hand a very large stock of each kind in all the sizes given.

When comparing our shoes and prices with others, please remember that low prices do not always mean bargains, for it is a simple matter to lessen cost by reducing quality. A cheap insole, paper counter, a grade or two poorer upper leather, soft, spongy soles, do not change the outside appearance of the shoes particularly, but when you come to wear them you will find the difference. We handle only honestly constructed, dependable, reliable shoes, and you can patronise our shoe division with confidence, knowing that the shoes you buy are all right in every particular.

To Get Shoes That Fit.—Do either one of two things. Write us the size and width you wear, which is the best and a very sure way. Most people know these measures of their own feet, and they can usually be found on the lining of your old shoes. If, however, the size isn't remembered, and not discoverable on your old shoes, stand in your stocking feet on a sheet of paper and draw with a pencil the outline of your larger foot only. It will not be necessary to send us any other measurement, as by our experience and knowledge of shoe sizes we can readily determine what size and width will suit you best.

We have received advices from the leading local manufacturers to the effect that, owing to the advance in prices on all leathers, they will be unable to execute future orders at old rates, and from January 1st, 1910, there will be an increase in price on all kinds of Boots and Shoes. In view of this we beg to state that we cannot guarantee to supply goods at prices quoted, but if you leave it to us you can depend on us doing the best we can for you, and where it is possible we shall endeavour to stand by our quoted prices.

Men's Boot Department.

Though a man may be clothed in garments that are faultlessly tailored, and with a smart dignified appearance in every other respect, the effect is lost if he wears a badly-made or poorly-finished pair of Boots or Shoes. Footwear should be thought of as the first amongst the articles of wearing apparel.

Our Men's Boot Department is a feature of the Model Store, and the illustrations given below are actual photos. of goods now in stock, which serves as an excellent guide to our customers who are unable to visit the department personally.

The gratifying success of our Men's Boot Section is due to a combination of Quality, Style, Fairness of Prices, and Best Attention. Our aim is to sell only such goods as give entire satisfaction. Tell your friends of the excellent value you get from us.

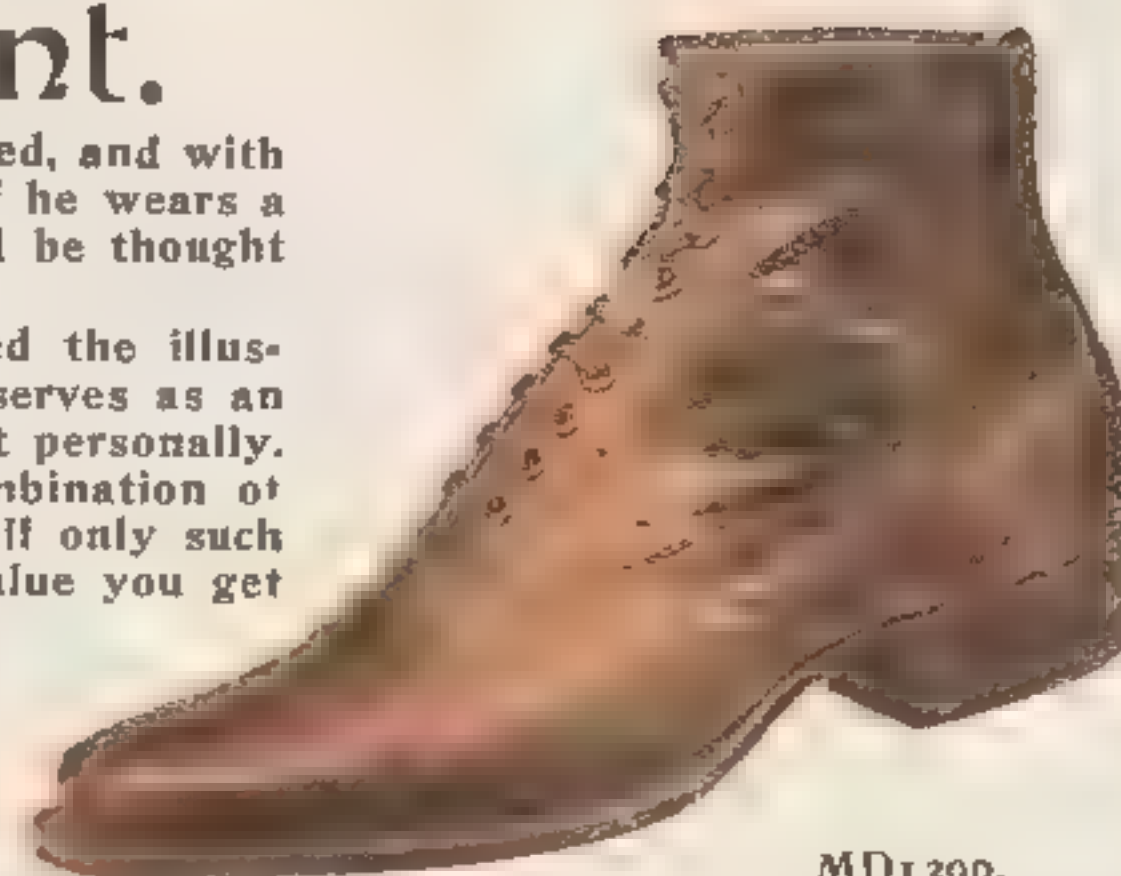

MD1283.

Men's Tan Willow Calf Lace Boots, one of our specialties for summer in the "Model" Boot. The colour of the upper is a very nice shade of tan, and not too yellow in appearance, welted soles, with slightly extended edges. We also stock this boot in a shape a little wider. Price, 12/6 pair.

A Page of "Model" Boots.

The "Model" Boot for Men.

The "Model Boot" is our best effort in Men's Boots; it has been planned with the object of giving our customers a solid, serviceable boot at a moderate price.

Boots Guaranteed.—When we say we guarantee, we mean a genuine guarantee that we will make good as stated by the warrant. We here state that with each pair of the "Model Boots" we guarantee that, should the upper break before the soles are worn through, we undertake to give a new pair of boots Free of Charge.

The "Model Boot" is made in six different shapes of specially selected leather—Box Calf, Tan, Willow, Black Glace, Tan Glace. We recommend the Box Calf as the most durable for country wear.

The reason we emphasise this boot so much is that the manager of our Boot Department and the manufacturer have put their whole heart into this job, and if there is any reliable boot in our store, it is the "Model Boot."

OC21.

This Up-to-date Button Boot is our "Model" button boot; the shape is the latest, the uppers of true glace kid, and the soles are welted with extended edges; wear guaranteed, 12/6. Also in Derby cut style.

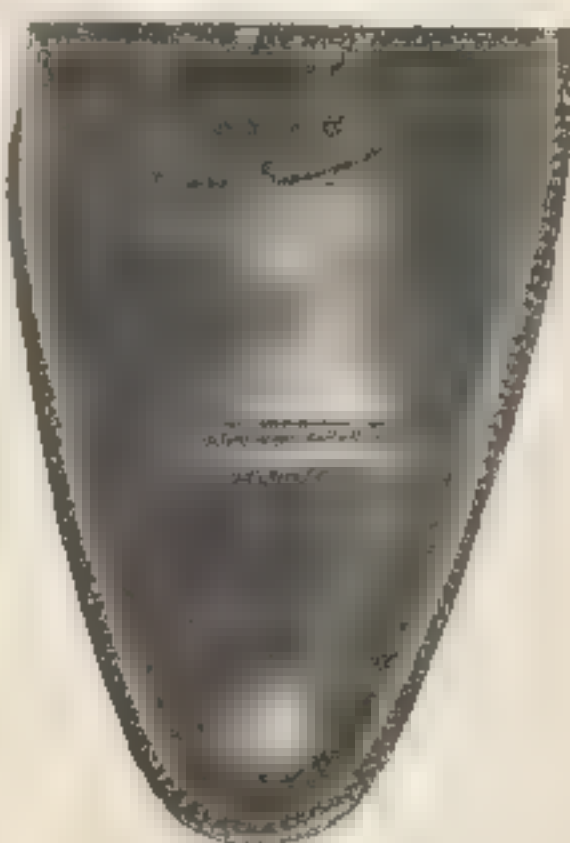

OC22.

A Glace Kid Boot, with a welt sole, one of the best styles of the "Model" Boot. The shape is splendid for fitting and comfort is assured; wear guaranteed. Price, 12/6.

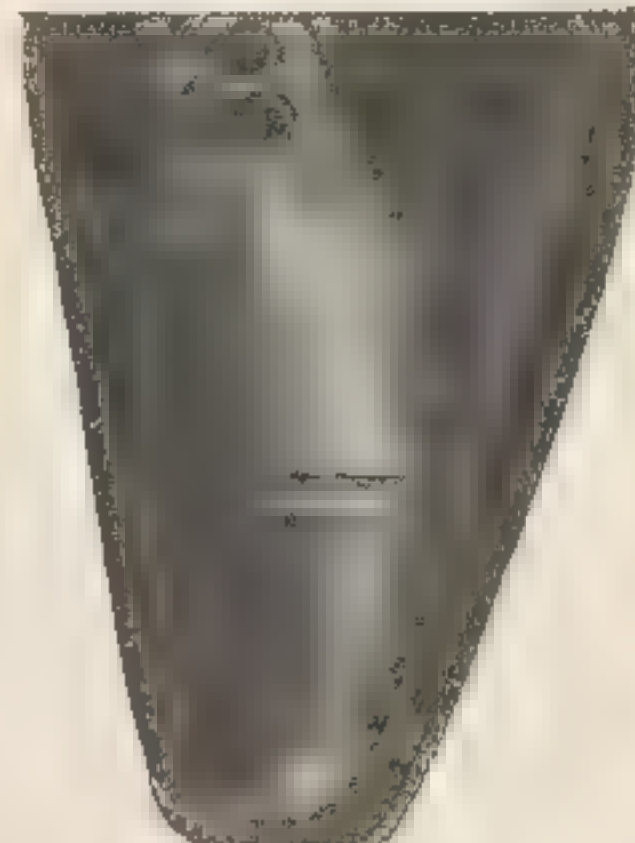

OC23.

The leather from which these Boots are made is a specially Tanned Box Calf, which gives splendid service. The leather has been well tested, and we can thoroughly recommend it. The soles are welted and cork filled, so as to render them waterproof; wear guaranteed. Price, 12/6.

No. 3 Toe.

OC25.

This Boot is one of the newest and most nobby boots on the market, made of Black Glace Kid, finished well inside and outside; the fit is perfect and the shape is correctly shown. Also made in tan glace kid; wear guaranteed. Price, 12/6.

OC26.

This illustration faithfully portrays the Boot as it really is; the uppers are of fine glace kid, and the toecaps are made of the best patent calf, which gives better all round service than other shiny leathers; welted soles and an extra long last; wear guaranteed. Price, 12/6.

As a guide to our Customers who cannot shop with us personally, we have photographed a few of our shapes of Men's Boots. When ordering kindly state which shape you prefer.

OC24.

Our "Model Shoe" is a handsome shoe, and superior in style and fitting. The uppers are fine glace kid, the perfection of strength and durability. It is made so as to prevent any slipping at the heel, so common in most shoes; can also be had in a beautiful brown shade of kid; wear guaranteed. Price, 12/6.

OC27.

This Boot of Fine Glace Kid, with its broad, roomy last, is a boon to those afflicted with tender feet. It has that excellent appearance on the foot that men insist on having nowadays, welted soles with extended edges; also made in box calf and tan willow calf; wear guaranteed. Price, 12/6.

Linoleum & Oilcloth Department.

This section of our business has had a wonderful development from the first day we sold 8 yards of 72in. Floorcloth, when our shop was so small we had to take it on to the sidewalk to cut. Now we keep (always on hand) a stock of Linoleums and Floorcloths to the value of from two to three thousand pounds; our average shipment would be from three to four hundred pieces per week. It is, therefore, easily understood that our buying must be right, and our values second to none. The leading makers of these goods can be counted on one hand; we make our selection from each, and we can guarantee the quality, for we stock no inferior maker's goods.

Carpet Squares.

Carpet Squares are the most popular form of covering a room, as they save so much in labour—being so much easier to take up and clean than when the carpet covers the room all over. You can either stain the border or cover with a plain or parquet linoleum, which is equally effective, thus showing your carpet off to advantage. We carry a large and up-to-date stock of Squares, in all the newest and best designs and colourings of fawns, greens, crimson, and other popular shades.

Turkish Squares.—These Squares are made by hand, and consist of the very best of wool at Ghorlades, a town of 32,000 population in Turkey. Antique Ghorlades' Carpets are in especially bright weaves, famous for peculiar tints of red and yellow. In reproductions of antique, but in modern variations of old designs, and in any colours desired. The designs are in large figures, usually in well known Turkish geometrical patterns. The majority of these hand-made carpets were made by the women of the above country. The sizes we have in stock are as follow:—

5ft. 2in. x 2ft. 10in.	43/6	10ft. 6in. x 6ft. 11in.	205/-

When purchasing Linoleum, or any Floor-covering, make sure the floor is well laid, and that no dampness can reach the floor. Purchase sufficient felt paper to go under the Floor-covering; it will considerably add to the life of the Linoleum or any other material you select. When laying leave the Floor-covering unfastened for a week or two; this will give it time to flatten out, so that it will not buckle.

At date of issue we have a stock of everything described or illustrated, and as far as practicable we shall endeavour to supply your esteemed commands. We would, however, ask our friends to always make a second choice, in case the first is sold out, or to leave the selection to us, when we will use our best endeavour to select the most suitable article for your requirements.

For Evidence of Style, Effectiveness and Durability the "Model" Curtain is the best Lace Curtain we know of, and we have every confidence in recommending them to our patrons as a Curtain to be relied on. The prices range from 8/6, 9/6, 10/11, 12/11, 14/6, 15/11, 17/11 to 35/-.

Do you ever find the edge of your lace curtains become frayed and untidy from the wash? If so, try our curtains with the overlocked stitched edge. ASK FOR THEM.

Why we recommend the "Model" Curtains:—

1st. Because we have them made of double woven unbreakable net. This will ordinarily go through the wash without tearing.

2nd. The horizontal comb mesh of the net will yield to the strain in the wash, and yet easily recover its normal condition.

3rd. Chiefly because we guarantee the "Model" Curtain to give good wear, to wash well, and to look better after 12 months' wear than any other curtain of the same class.

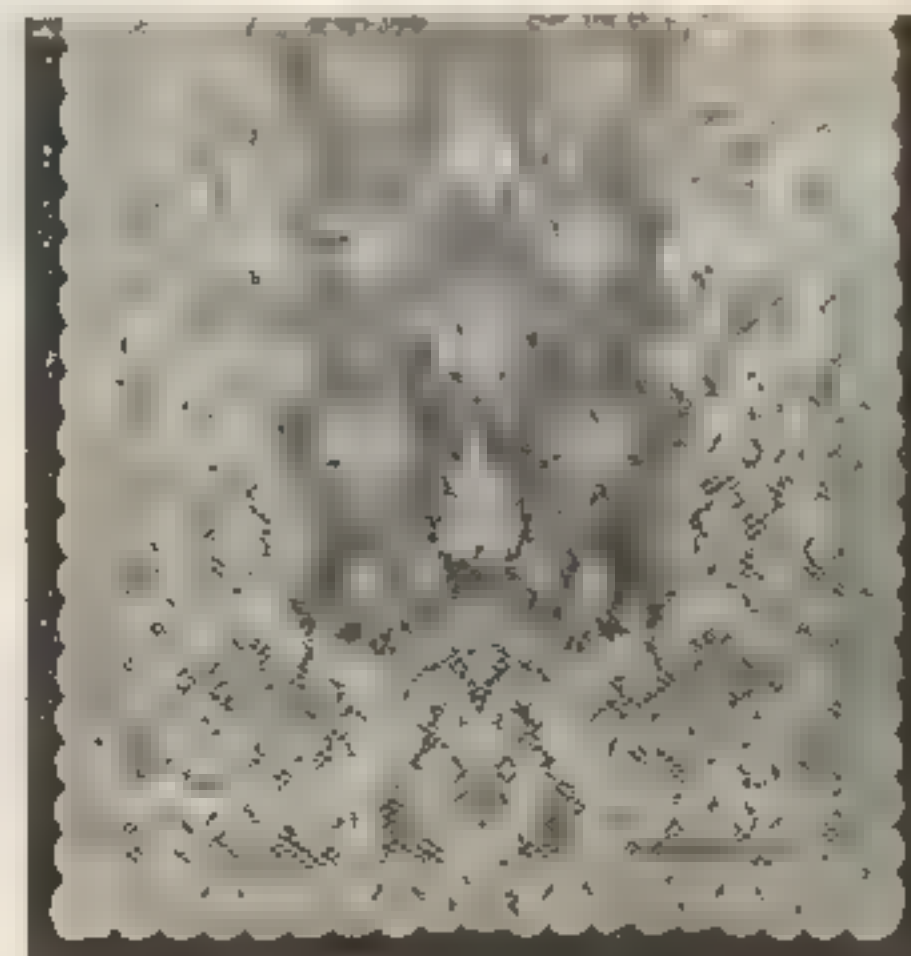

OD66—Illustrates a Typical Applique Curtain. We carry a large and varied stock of these, and offer them at specially low prices; 3½ yards long, 13/11, 19/6, 22/6, 27/6, 30/-, 35/-, 39/6, 42/- to 55/-; 4 yards long, 49/6, 57/6, 70/-, 79/6.

OUTSIDE BLINDS.

What a wonderful difference to the temperature of a room an outside ticking blind will make. The bamboo blind is cooling, but it is a positive luxury to have a fixed Spanish rise and fall outside blind to your living room. The box that will conceal the whole of the blind when not in use is fixed to the brick work of the window. A pulley action with iron guide rods governs the movement of the blind. We import a special red and white ticking for this class of work. The blinds can be relied upon, for we use the same for large shop blinds. We make all styles of outside blinds to order on the shortest notice. Our stock of ticks is of the best quality at low prices, and our blinds are made in our own factory, where the work is carefully supervised, and "only the best" will be our motto.

Introduction

IN the following pages GRACE BROS. give illustrations of Furniture and other articles suitable for the equipment of the home.

The selection represents only a portion of their choice and varied Stock ; but estimates for complete furnishing will be forwarded upon application. The chief result at which GRACE BROS. aim is durability, artistic design and economy in price.

We do not claim that our prices are the cheapest, but we do claim that our prices are the lowest compatible with the value given. Our system of cash trading enables us to offer you goods guaranteed of sound construction at prices that will cause you to dwell and think seriously before going to time payment houses.

We have no commission to give and no bad debts to allow for.

We trade only for cash, and consequently are enabled to quote you prices based on the lowest possible margin of profit.

We mark all our goods in plain figures and we do not on any consideration allow that price to be altered. We have only one price to all, and we do not give credit.

Our **Furniture Department** is situated on the second floor of our Broadway Building. We shall be glad for you to come in and inspect our Stock, even if you are not purchasing.

Our **Bedstead and Bedding Department** is situated in the Basement of our Francis Street Building. We carry one of the largest and most up-to-date stocks in Sydney in this Department. Space does not allow us to give you a full range of the goods, but we illustrate a varied assortment for your guidance.

All our Bedding is made in our own factory, and consequently we guarantee the purity of all Mattresses and Bedding.

We re-make Bedding and shall be pleased to quote you for any alterations.

We pack all country orders free of charge, except where cases are required, and the utmost care is taken to ensure safe arrival. We deliver to suburbs by our own vans.

In handing you this, our latest Furniture Catalogue, we quote all prices subject to the fluctuations of the market but at all times our customers can rely upon having a square deal at The Model Store.

There is no safer or better investment than good Bedroom Furniture. When purchasing look well to the probable length of service you will obtain from the article. Good Furniture is not an expense—it is an investment. GRACE BROS. really find a pleasure in placing before every house-keeper the best it is possible to produce in the way of values. Every piece has been carefully examined, so that no faulty work shall be sent to our customers. By watching the interests of their customers Grace Bros. know they will maintain their reputation as value-givers. Do not be cajoled into buying at a house that accepts a cash order man's slip, for then you will be paying part of his commission.

GRACE BROS.' PRICES ARE FOR CASH ONLY.

And you can be certain that at the Model Store there are no "blanket commissions" of any sort. These pages will give you some idea of the values we offer in our Bedroom Furniture section.

COME IN AND INSPECT THE ACTUAL GOODS.

MANY Patterns of High-class Furniture are not reproduced in a lower-priced grade, but Grace Bros. are exploiting this section of the trade, and now offer many choice reproductions at prices which are within the reach of all.

We consider it our duty as the Store that keeps faith with the public to give our customers the best of everything at the lowest possible expense.

It is very little to say that these designs are as substantial and good as those priced much more highly; for as the only difference is in the timber, these suites could not give any better service if they were made in oak.

We would like an opportunity to show our customers over the whole of our large furniture floor; it would be an evening or an afternoon well spent.

Or you could come in and look round without being worried to purchase. That is one of our ways of showing a welcome—by leaving you alone.

Furniture for Cash.

In a recent issue of the *Daily Telegraph* mention was made of the time payment firms as follows -

"The firms that do time-payment business have to take unusual risks, which means that honest purchasers will have to pay more to make up for the default of the dishonest ones."

Grace Bros. do not sell any goods on time payment. That means when you buy from us you do not have to make up for anyone's dishonesty. Neither do we allow a discount to the Cash Order Man. You pay the same price to us as the Governor-General would have to pay. That is what we call

A SQUARE DEAL.

An Incident.

A young couple were furnishing some time ago, and came to Grace Bros. to buy their Furniture. They spent about £70, and then asked Mr. Grace for a "wedding present." Now, it is our chief axiom "to keep faith with the public," and Mr. Grace said: "The prices at which we sell only allow the margin of profit necessary to fair and square trading, and if I were to give you a wedding present I am reducing the cost of the goods without cause, and, further, I am not acting squarely."

Grace Bros. do not give any concessions or discounts in any shape or form, and therefore all our customers know they get a "square deal."

The prices quoted in this book are the actual prices we sell at in the Model Store to day. Any market fluctuations which affect the prices will be added on or taken off as the case may be.

Grace Bros.' Furniture.

A newly married couple is never ashamed to say, "We furnished at Grace Bros." In fact, they will say it most heartily. For then **the whole world** knows the goods are paid for. Now, then, young man, when you decide to furnish, bring your wife in, and she will never be afraid to say where she bought the furniture; in fact, she will say with greatest pleasure she bought it at **Grace Bros.** And she will know there are no galling weekly payments to be made, which are wormwood to a wife's heart.

The quality of every article will be found to equal anything in Sydney, and, as we give no commissions, you get the full benefit of our system of buying for cash and trading on the smallest possible margin of profit.

Buy for Cash and avoid Time Payments.

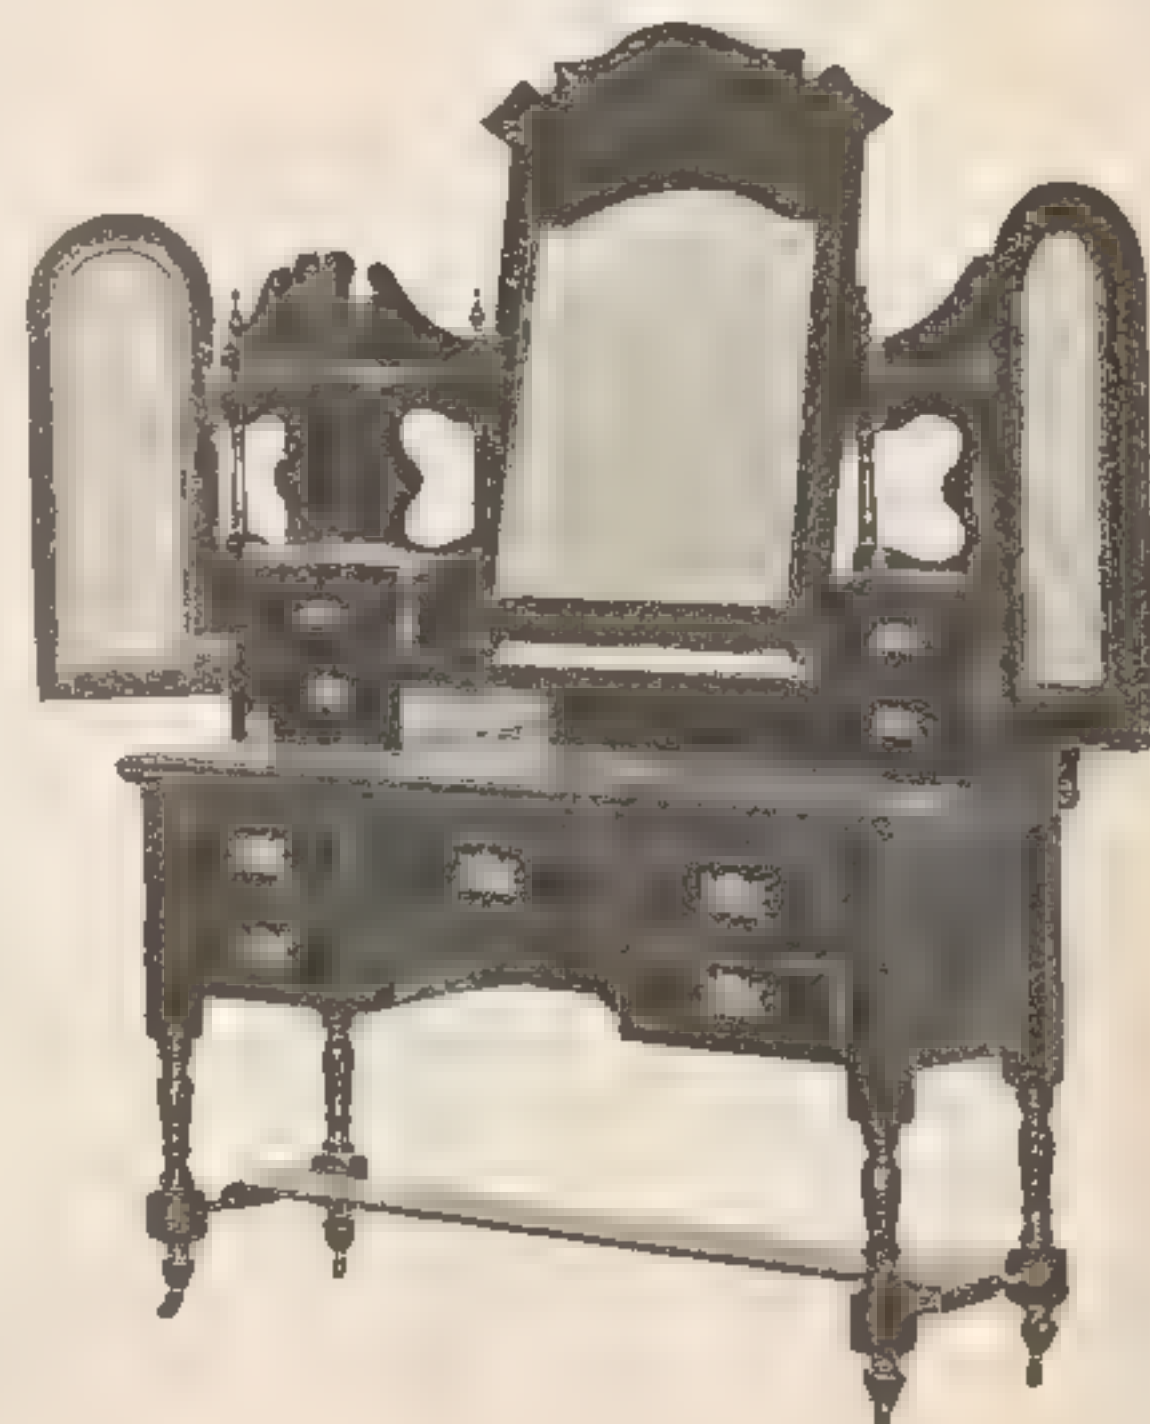

Washstand, £4/10/-.

OE113.

Complete, £21/5/-.

Dressing Table, £5/5/-.

**WE DO NOT PAY CARRIAGE
ON FURNITURE.**

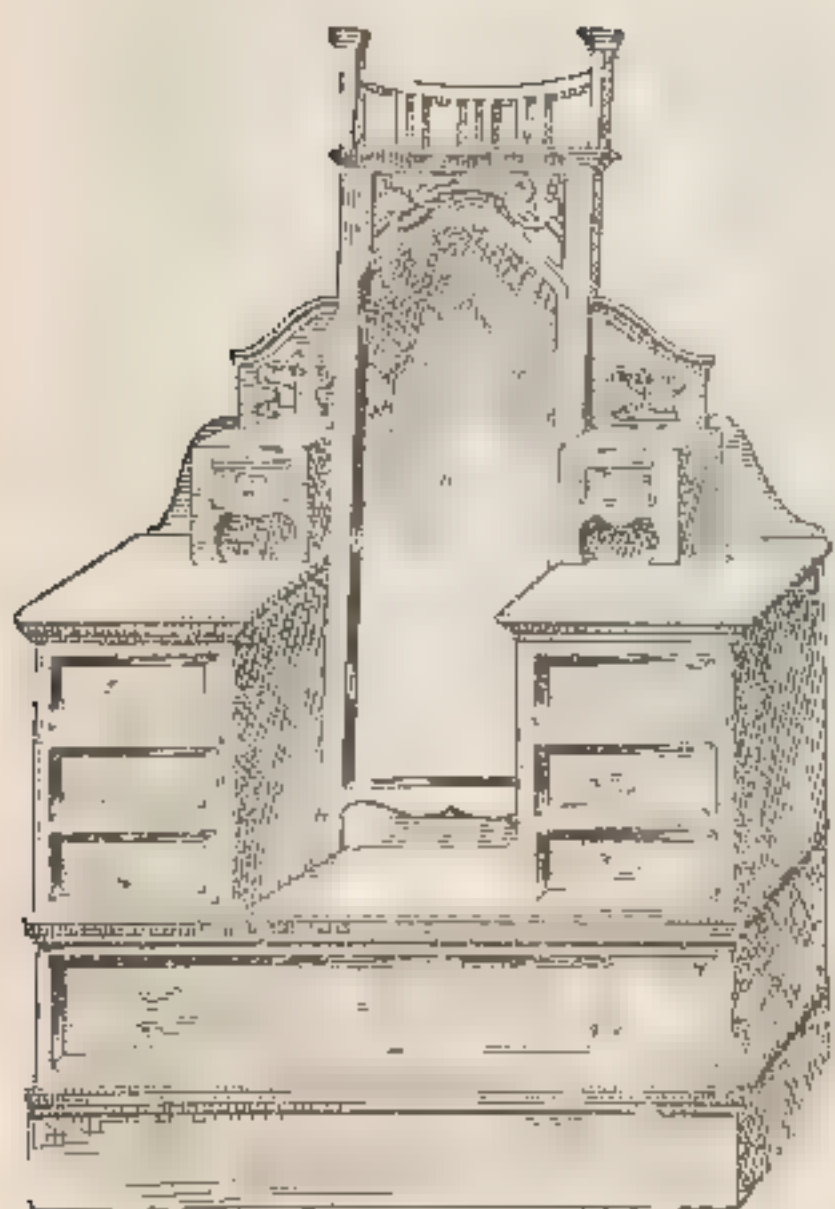

The Cash Order Man.

Grace Bros. know well that the cash order man would like to do business with us if we would give him a discount of 10 per cent., same as he gets from a number of other establishments. Now, we will give you our opinion, and feel sure you will say we are right.

If you were going to buy a lot of goods for cash, and came to us, you would get those goods for the prices marked. Say, for the sake of argument, you bought the Suite illustrated here, the cost to you would be £16/7/6. The cash order man wants a 10 per cent commission, and if we gave the cash order man a commission because **he finds the cash, we could give it to our Cash Customers, and we do.**

Grace Bros. prices are for Cash, and our customers get every concession, because the prices are absolute bedrock. Then, if you have cash with which to buy furniture, you should avoid any house which accepts the cash order man's notes as you would avoid a snake.

We give no discount or commission to anyone, so that when anybody recommends you to try GRACE BROS. you can rely they are doing it simply from goodwill.

Time-payment men are in the habit of giving orders on different houses for furniture and goods. Ask for one on GRACE BROS. and they will not do it. Why? because we will not give them a commission.

We give you the commission in the value of the goods.

There is only one point we wish to impress, and that is—remember that GRACE BROS. have built their business by keeping faith with the public, and hope to still further increase it by a strict adherence to their motto.

Should any of our customers have cause to complain of goods purchased from us, even up to 12 months' service, we shall be pleased if they communicate with us in order that we may be able to remedy the defect wherever possible.

WE STAND BEHIND THE FURNITURE WE SELL, and we guarantee it for 12 months' fair service. We could guarantee most of it for six years, but for the first 12 months we wish to be considered as still responsible for the satisfactory service.

We have determined to build our Furniture Department on a similar foundation to that of our other departments—that is, by giving entire satisfaction to our customers.

Quotations may be found lower than some in this book, but everyone knows how easy it is to make furniture pleasing to the eye, but which will not give satisfaction in the use.

OUR TELEPHONE and DELIVERY SERVICE

Our Numbers are:

Central 1515, 2018.

Glebe, 393, 394, 395.

ON each floor we have DEPARTMENTAL TELEPHONES and clerks to attend to them; every message to the firm is entered on our telephone form and is submitted to the Manager, who will see that a reply is sent. Be sure and give your number so that this can be done.

Quick service is an advantage. The best way to get prompt attention on our 'Phone is to ring up either of the above numbers, ask for the department you require, and give your message to the telephone clerk; leave your number, a reply can then be sent.

If you particularly wish to speak to an individual, leave your name, address and number, so that you can be rung up; otherwise the delay in bringing the person to the telephone will be likely to cause you annoyance.

and ENAMELWARE are
situated on TOP FLOOR,
Block B.

CHINA, GLASS AND ENAMELWARE.

THESE Departments occupy the whole of the Top Floor of our Second Broadway Building, as shown on the cover of this section.

The stocks we carry in the various sections are up-to-date in every way, and although we will endeavour to always fill the orders exactly as illustrated here, it is advisable to make a second choice, for we very often are just sold out of a style. In some cases we may have a further supply arriving within a very short time; in other cases, however, we may not be re-stocking.

PACKING OF ORDERS. All Crockery, China, Glass, etc., is packed by expert packers, and every care is taken to prevent breakage in transit, but we do not accept any responsibility for breakage in transit.

Dinnerware

This is the most important section of a Crockery Department, and our aim is to always combine durability and attractiveness. All patterns shown are stock lines, and any piece can always be obtained to replace breakage. We quote our plates as cheese and pudding, dinner and soup plates, and in nearly every instance the measurements of the plates are the same—viz., cheese, 7 1/2 inches; pudding, 8 1/2 inches; dinner and soup, 9 1/2 to 10 inches. Meat dishes, we quote the trade sizes—viz., 10in., 12in., 14in., 16in., and 18in., the actual measurements of which, in most instances, are from 1 to 2 1/2 inches more.

For composition of Dinner Sets, see end of Dinnerware.

Our New Department—Groceries by Mail Only.

"The Best We Will Have—or We Will Have None!"

AFTER our last Sale we carefully analysed the result of paying freight on Grocery, and we find the cost is about ten per cent., excluding sugar, etc. We have decided to keep to the principle of the lowest possible rate of profit, and the keenest quotations procurable. Our List to-day will prove our assertion—that for quality goods our prices are the lowest procurable. On these prices it is absolutely impossible to pay freight, but for those customers who do not wish to be bothered with freight, we will take the risk and pay freight for, a charge of ten per cent. on bills of 50/- or over, provided the following articles are not included:—Sugar, Salt, Flour, Soap, and Produce.

Now, send us a trial order and see!

Will it pay you to send 55 - for a £2 10s. order of Grocery and get the Freight paid to the nearest Railway Station?

The Improved Broadway Drop-Head Sewing Machine.

We offer them at - - **£4/17/6**

All are Fitted with the Most Modern Improvements.

The natural and vigorous demand for a Sewing Machine of the highest grade and finish, but in no sense "cheap," has always been an important and satisfactory element in our line, and we now offer the Improved Broadway, a machine which is in every respect and particular the very best popular priced sewing machine ever produced. It is the first and only machine at its price to be equipped with positive take-up, disc tensions, automatic tension release, and certain other up-to-date features. All of the essential working parts are thoroughly hardened, and everything about the machine is given a first-class finish, both mechanically and ornamentally.

READ THESE PARTICULARS OF THE MACHINE:—

This illustration shows how the Machine drops into a recess, making the Machine stand into an attractive little table.

The Head is very handsome and pleasing in appearance, being carefully proportioned and highly finished in polished black enamel, and then beautifully decorated in an elaborate design worked out in gold and bright colours; also fitted with a handsome medallion and nickelled and polished face plate. All of the working parts (screws, plates, levers, etc.), are nickel-plated and highly polished.

The Bed Plate is entirely free from obstructions of any kind, and sets into a recess in the machine table, bringing the surfaces flush, thus greatly improving the appearance and facilitating the handling of the work. It is 14¼in. x 6⅞in. in size.

The Arm is large and perfectly proportioned. It has a clear space underneath of 5½in. x 8½in., permitting the convenient handling of large and bulky work.

The Needle Bar is round, accurately finished and thoroughly hardened. This round form of needle bar insures absolutely uniform wear at all points, perfect lubrication and equal rigidity in every direction.

The Needle is straight, short and strong. It is made with an enlarged shank flattened on one side, thus ensuring perfect setting of the needle. It is held in place by a patented needle clamp, which locks it securely, while also permitting ready removal.

The Take-up is of new design, absolutely positive and automatic. It is controlled by a cam on the main shaft, and will handle correctly any size or kind of thread or silk in a perfect manner on all kinds of goods.

The Tension is of the disc type. It is located on the front edge of the face plate in a most convenient position. It is of great delicacy of adjustment, and is absolutely positive and simple in its operation.

The Automatic Tension Release is a new special feature of value. With it the action of operating the presser bar lifter automatically releases the tension. Then, whenever the presser foot is lifted the work may be easily removed without injury to the needle, and without any attention on the part of the operator.

The Stitch Regulator is situated on the front of the upright arm in a most convenient position. It is provided with an index showing just what length of stitch the machine is making at all times.

The Improved Broadway is guaranteed for Ten Years against breakage from manifest defects.

The Automatic Bobbin Winder is a very important feature. With it the bobbins are wound almost as finely as a spool of thread. The winder is entirely automatic in its action, and is wholly free from springs or other uncertain devices.

The Feed is one of the greatest specialities of the Improved Broadway Machine. It is double, and extends on both sides of the needle. It has a perfect four motion movement, and will handle all grades of work with certainty and accuracy under all conditions. There are absolutely no springs in the feed of these machines.

The Hand Wheel is of best design, and finished with nickelled and polished rim. It is equipped with a positive releasing device, by means of which the operator, by merely rotating a milled edge screw, entirely releases the hand wheel from the working parts of the machine, thus permitting the winding of the bobbins at any time, even without removing any unfinished work which may be in the machine.

The Shuttle is large size, cylindrical in form, strictly self-threading, and is made of the finest tool steel, thoroughly hardened and highly polished. The shuttle carrier is provided with a patented spring lining, which balances and holds the shuttle securely, and entirely obviates all rattling and the uncertain action so noticeable in other machines.

All Bearings and Working Parts are hardened through and through, and finished in a very accurate manner.

The Woodwork.—The curved front drophead stand is of new and very superior design, and of unusual strength and beauty. It is furnished in oak finish only. The centre drawer is of the sliding pattern, of full length to receive the various attachments.

The Stand is made and finished in a good and substantial manner which it rests, and the treadle and fly wheel are both hung on adjustable steel centres.

The Attachments, supplied without extra charge, are of the latest design, and constructed throughout of the best steel, polished and nickel-plated, and includes the following:—Ruffler, Tucker, Binder, Braider, Four Hemmers of Assorted Widths, Quilter, Thread Cutter, Foot Hemmer and Feller.

The Accessories include Twelve Needles, Six Bobbins, Oil Can filled with Oil, Large and Small Screw Drivers, Sewing Guide.

A SPLENDID OFFER.

Nowadays people are forced to look for the best value their money will buy. That is why we feature

The "Broadway" Hand Sewing Machine

so prominently. The "Broadway" is the highest grade, handsomest and most serviceable Sewing Machine in the market, and must not be classed with machines of obsolete type that are lavishly advertised and offered at low prices. The "Broadway" Hand Sewing Machine is up to date in every respect, new in design, and embodying many new ideas. It is a perfect reciprocating shuttle, lockstitch machine, Light Running, well made, honest, with nothing cheap and shoddy in its make-up, and can never be worn out with ordinary use.

The Feed is of entirely new construction, simple, strong, and Positive. The operation of the feed is such that it does not begin to drop until the full length of the stitch is made.

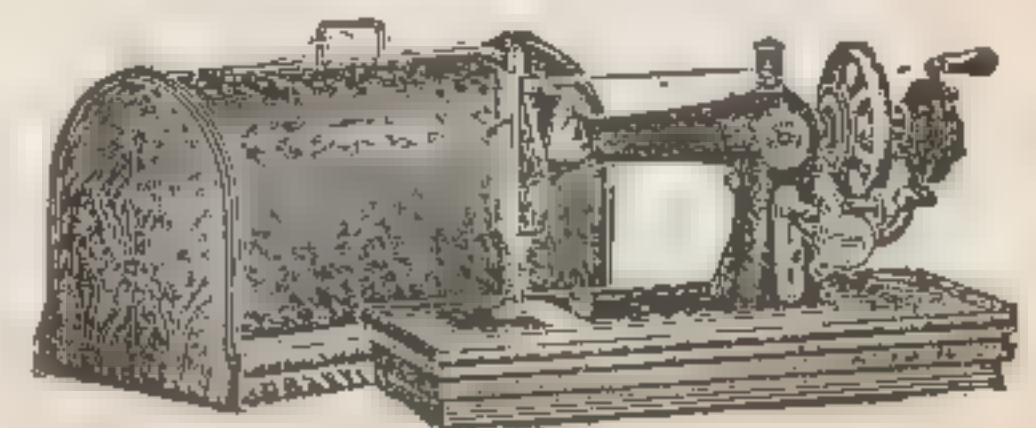

Needle is self-setting, enabling the operator to set it quickly and correctly.

It is fitted with the latest Disc Tension, is self-threading, with Automatic Release.

Presser Bar is furnished with spring and screw adjustment to regulate the pressure according to thickness of work. Both needle bar and presser bar made from best steel, and with dust proof cap. The Presser foot is easily removed for putting on attachments.

Head is graceful in design and beautifully finished.

Bright parts polished and nickel-plated.

A detailed black and white illustration of a large, heavy-duty industrial machine, likely a rubber roller or press. The machine features a large, ornate cast-iron frame with a prominent arched top section. A large flywheel with a spoked rim is attached to the right side, connected to a horizontal shaft. The machine has multiple rollers or processing surfaces. A large hand-crank handle is visible at the top center. The entire unit is mounted on a sturdy base with four legs, each ending in a small wheel or castor. The illustration is rendered in a classic technical drawing style with fine lines and cross-hatching for shading.

The Stanley Universal Plane.

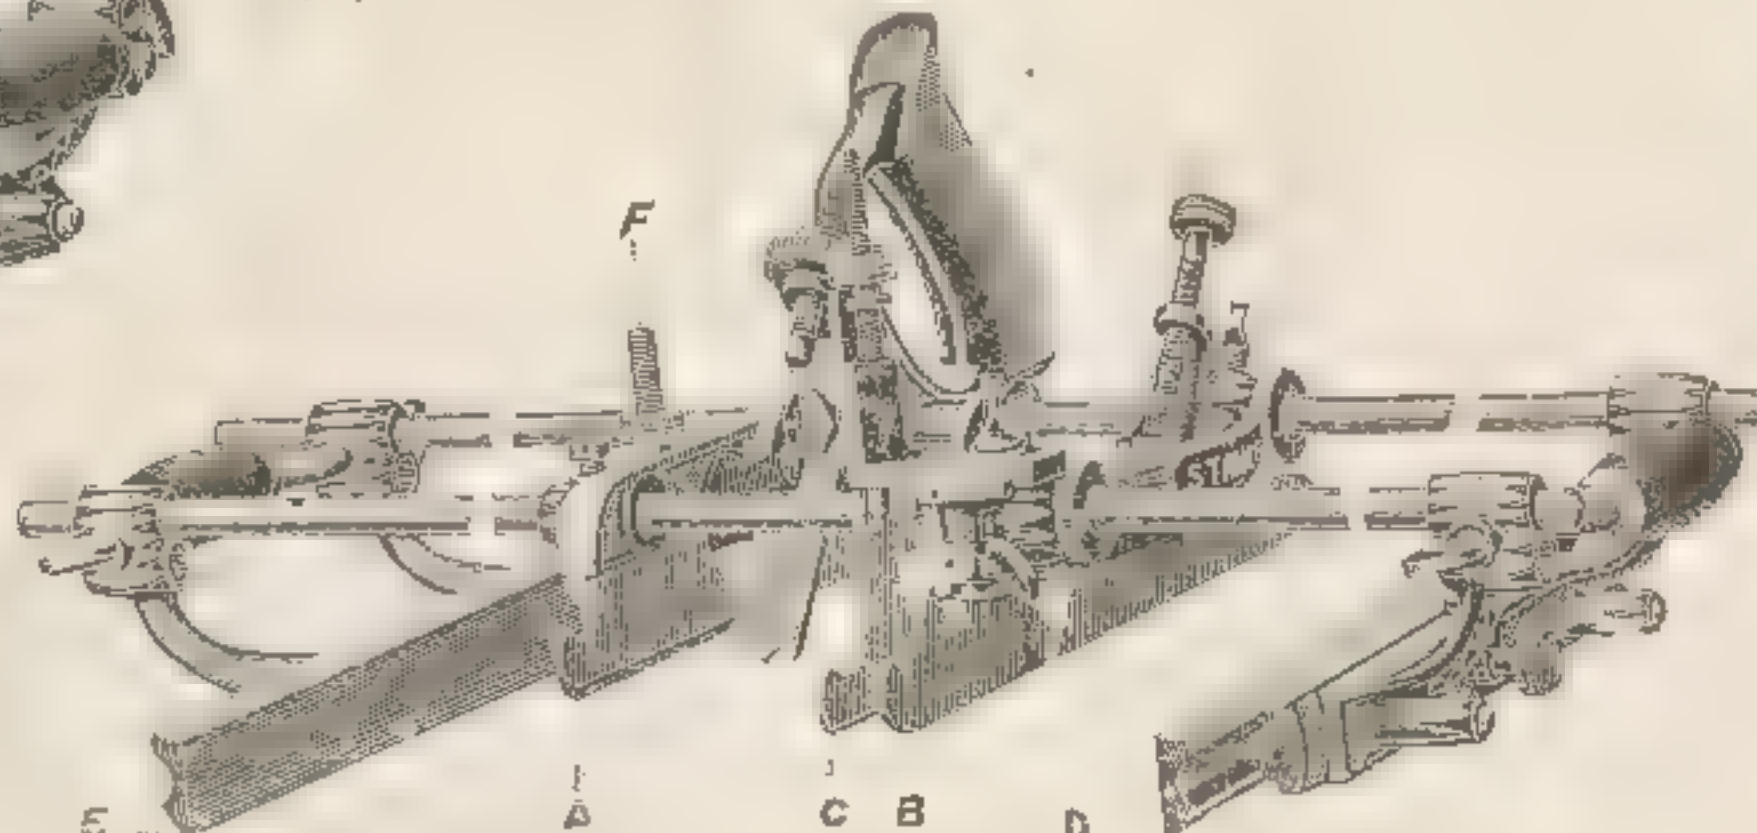

This tool, in the hands of an ordinary carpenter, can be used for all kinds of work which would require a full assortment of fancy planes. The plane is nickel-plated, the 52 cutters are arranged in four separate cases, and the entire outfit is packed in a neat varnished oak box. The Universal Plane includes:—

Moulding Plane, Match, Sash, Chamfer, Beading, Reeding, Fluting, Plow, Hollows and Rounds, Dado, Rabbit, Filister, and Slitting—a complete kit in itself.

The "MODEL" DOVER STOVE.

To give our customers a splendid little cooker at a lower price than usually asked has been Grace Bros.' effort during the last few months. Grace Bros. have now made arrangements to supply a first-class stove, and when Grace Bros. put their well-known Trade Mark on a stove it means that it is the best stove to be produced for the money. We now offer the "Model" Dover Stove for the first time, perfectly satisfied that it will give absolutely the best service.

PK142.

The Mistress Range and the Address Range are alike, except that the Mistress oven is on the right hand and the Address oven to the left of the fire grate. Burns either coal or short wood.

GAS STOVES.

This handy little Oven can stand on a range hob or any other small corner available, as it takes but little space. The top is fitted with a combined grill and boiling burner, and the Oven has separate burners. This oven will roast or bake by inserting self on top and cooking space over grill burner. Grill pan is placed under Oven and serves as a drip pan. Outside sizes are 14½in wide, 11in deep, and 19½in high. Price, 37/6 each.

PK144. THE BEACON LIGHT COOKING STOVE.

This well-constructed and serviceable stove is specially adapted for wood fuel. It possesses great capacity for all kinds of cooking, having space on the top plate for six separate boilers, pots or kettles, and has also a large and capacious oven. The fire-box is fitted with iron lining and movable back, which can be moved so as to take long billets of wood.

Outside Lamp, with inverted burners, strong high grade black enamel cases, fitted with lever cocks and by-pass jets. Absolutely shadowless light of 125 candle power per burner on a consumption of 4 cubic feet of gas per burner. These lamps are scientifically constructed, the following improvements being embodied:—1st: The introduction of separate inner glass chimneys, whereby efficiency in combustion and consequent increase in illumination is obtained. 2nd: The provision of independent flues to effect the dispersion of the products of combustion, resulting in the total avoidance of vitiation of air supply to Bunsen tubes. 3rd: The improved regulating nipples, which permit their adjustment from the exterior of casing to suit varying pressures. The prices quoted include Veritas XX mantles, inner cylinders and bowls.

Inverted Burner, finished polished brass or oxidised. With gas regulator, 4/-; globe as shown, 1/6; mantle to fit, 8d. These inverted burners give a light estimated to equal sixty candle power with a gas consumption of 3 1/2 to 4 cubic feet per hour. They give a steady bright white light, which is thrown on to the floor. The mantles last much longer than ordinary upright mantles do, the inverted mantle being tied all round a frame, thereby minimising risk of breakage.

GRACE BROS., THE MODEL STORE, BROADWAY, SYDNEY.

OUR SPECIAL LINES IN GROCERY.

If ever there are two articles of food which appeal to us, rich and poor alike, it is Pure Jam and Good Tea, and it is not to be wondered that we emphasize the quality of each. As these articles of food are made and packed expressly for Grace Bros. we are able to guarantee the quality of both.

Grace Bros.' Tower Brand Tea.

There is no article which we drink subject to so much criticism as tea. Have you not heard the expression—What vile, or beautiful, tea! as the case may be?

Grace Bros. have engaged the services of an Expert Tea Blender to buy for them a Tea that is purely Ceylon, and one that will suit all tastes.

This we have named THE TOWER BRAND, and the quality now offered will be the standard always maintained by us, for our Tea Expert assures us we can always get this quality, and it will be the most fragrant tea ever offered to the public of New South Wales at 16 per lb.

Tower Brand Tea contains the maximum percentage of Aromatic Oil and Theine with the minimum of Tannic Acid, and by simply pouring boiling water on the leaves will give off its aromatic oils much quicker, and so less of Tower Brand Tea is required to make a good cup of tea, thus reducing the price per cup greatly below that of poor tea.

A trial sample will do more to convince you of the good qualities of Tower Brand Tea than we could say in its favour. Ask for a free sample to be enclosed in your next drapery order.

Tower Brand Tea is packed as follows:—

A Serviceable Barrow

For the Man on the Land.

This Barrow is made in America ; the tray measures at bottom 18 in. x 17 in. ; at top 30 in. x 30 in.

The handles run right through from axle to end in one piece of hickory 2 in. x $1\frac{1}{2}$ in. The legs, 2 in. x $1\frac{1}{2}$ in., are braced to the shafts by 2 in. x 1 in. hickory all so well bolted and fitted that any amount of rough usage will not shift them.

The usual fault with barrows is the drag of the legs from a heavy load being set down too suddenly ; this cross-stay is put to prevent the strain. Wood handles fitted into iron shafts are always off before the barrow is half worn out, and they work loose and spoil the hold. Our barrow, having the wooden shaft right through, saves that trouble ; all you require to do is to keep your bolts tight and your barrow will last a long time. Its weight, packed ready for rail, about 56 lbs. The cost of barrow is 17/-, freight extra.

Can you find use for one at 17/- each ?

They can be supplied ready for use or packed for convenience in transit.

About Paint

Even Painters are using Paints mixed ready for use for their best work. They admit that machine mixed enamels are the only ones in which the ingredients are properly incorporated, yet they argue that for ordinary work hand mixed is best.

Thistle Brand Ready Mixed Paints give best results.

Packed in seven sizes, only pure linseed oil used in its manufacture, and the ingredients thoroughly incorporated by machinery, it offers a convenient and reliable paint for all ordinary purposes at a low price.

KENT'S KALSOMINE BRUSHES.

Best quality grey bristles, 6 1/2 oz., 13/-; 7 1/2 oz., 15/-; 8 1/2 oz., 15/6.

Best quality white bristles, 6 1/2 oz., 14/-; 7 1/2 oz., 16/-; 8 1/2 oz., 18/6.

Brushes for painting and decorating are a great factor in turning out good work, as well as forming a considerable item in the cost of a job. They require great care and experience in selection, and careful handling when in use. For painters the best brushes are undoubtedly the cheapest, although first cost is much greater. They are made principally of pure hog's bristles, different qualities, such as stiffness and solidity being chosen for the various kinds. A good brush will do good work, last much longer than a cheaper one, and often do the work in less time.

Brushes for use in colour should first be soaked in water to swell the bristle in the binding. This applies equally to brushes for use in paint, lime, kalsomine or whitewash, whether bound in wire, leather or tin. A brush made for paint should not at first be used in varnish, the spirit of which dissolves the cement or glue and loosens the bristles. When a paint-brush is well worn down in colour it may prove satisfactory in varnish. A brush, after use, should be thoroughly cleaned out in turps or soap and water. If left in water any time the bristles are likely to lose their elasticity. During the progress of a job it is better to wrap a piece of paper round each brush than to put into water.

A brush made for varnish must not be put into water, as the water destroys the cement. "Must not be put in water" is marked on most varnish brush handles.

Varnish brushes, when not in use, should be suspended in either oil or varnish, the brush not resting on the bottom, as the bristles are likely to lose their shape. Brushes should not be put in turpentine.

Stippling Brushes should be well cleaned and dried after use, the bristles being kept from crushing. The best makes are sold with a box, into which they can be slid, which should be used to preserve the brush. Should a brush become quite hard with paint, it should be soaked for twenty-four hours in raw linseed oil, after which rinse in hot turpentine. Some of the paint removers sold in liquid form are also useful for this purpose.

Aetna Burning-off Lamp. No. 7 gives a very pure and hot flame said to register 3,000 deg. Fahr. It burns upside down, or in any other position, and is not affected by wind or rain. The flame is 10 in. in length. Is made entirely of strong brass. Burns kerosene at full pressure at the rate of $\frac{1}{4}$ pt. per hour. We consider this the best lamp for painters, the flame being more under control. Price, 12/6.

Pr40.

Similar to Pr39, only smaller, and with folding wire handles, 9/6.

Pr41.

The Vesuvius Burning-off Lamp is not so hot as the Aetna, and has a broader flame. It will burn in any position, or in wet or stormy weather. Price, 13/6.

All prices subject to market fluctuations.

WALLPAPER DEPARTMENT.

THE SELECTION OF WALLPAPER.

Before selecting Wallpapers we advise our customers to carefully note the following:—

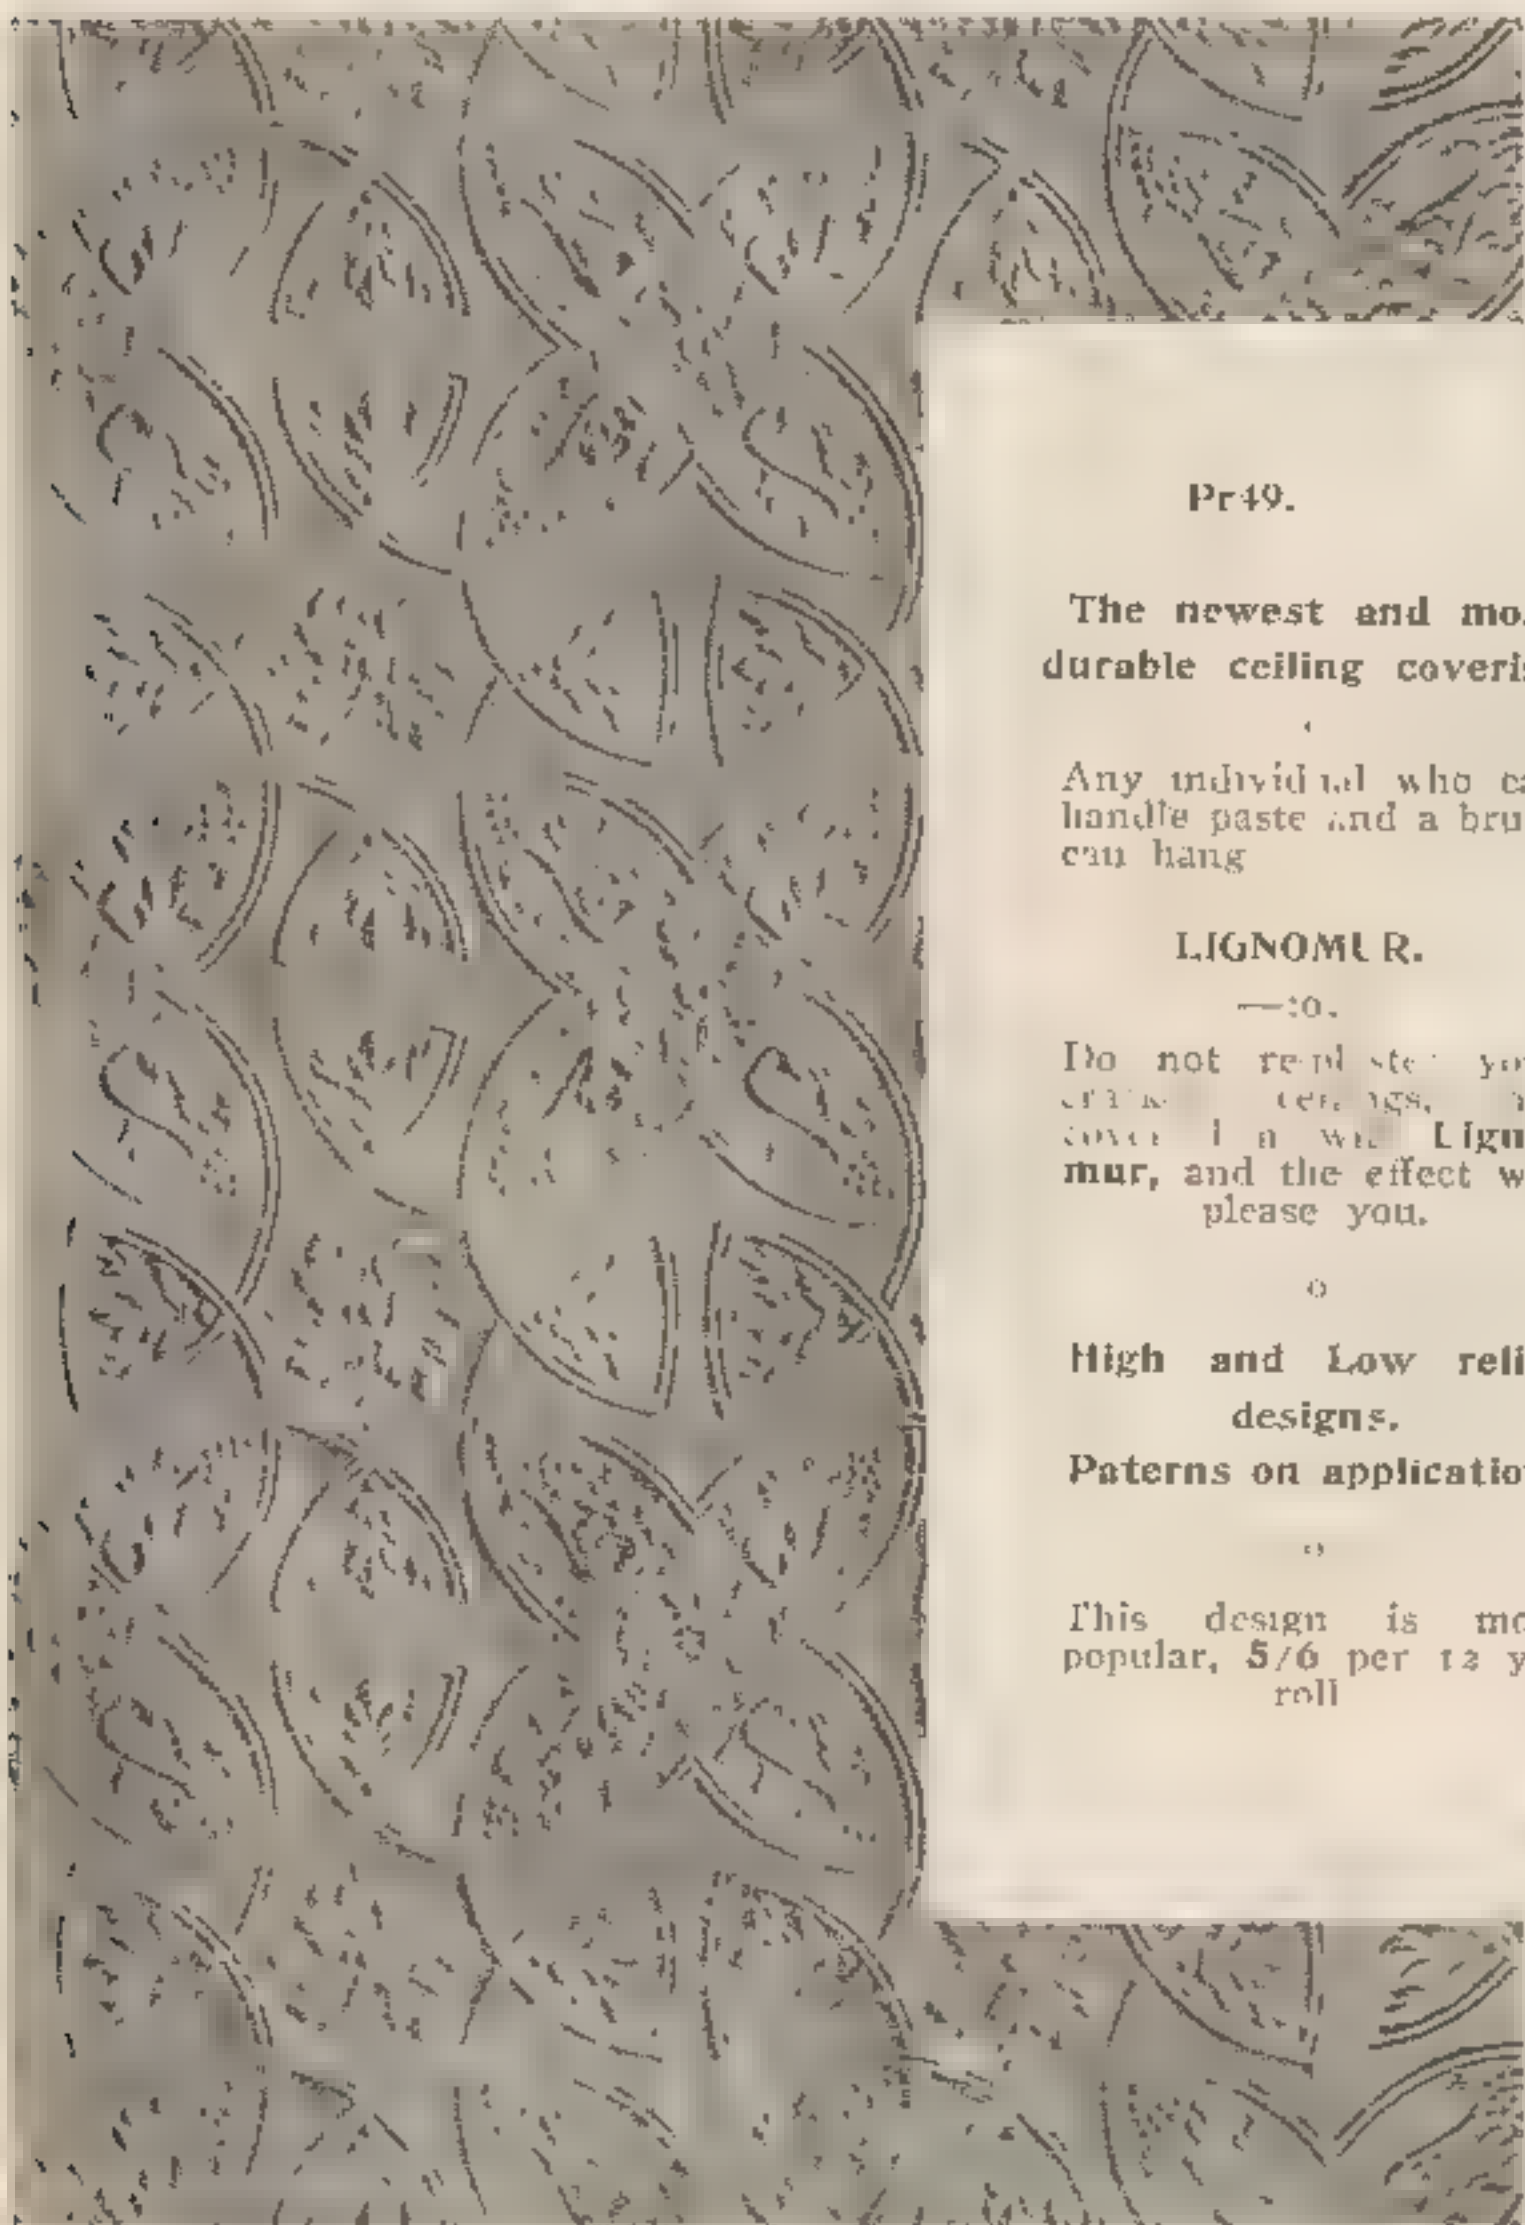

To brighten up a dark room always use a light coloured paper. Dark papers will help to reduce the glare in a bright, sunny room. For rooms with low ceilings always use a striped design paper. This style of Wallpaper is quite up-to-date, and always gives elevation to the walls. For a drawing-room with modern furniture in it, the most effective papers to use are those of light delicate tints. Green, pink and pale blue shades are to be recommended. In selecting paper for a dining room, or a library, preference should be given to a self coloured paper. Warm tints, such as reds, browns, or deep greens should be used. The walls of a bedroom should be covered with a light coloured paper of floral or striped design.

We also suggest the addition of a frieze to the Wallpaper in any class of room. When writing for patterns, which are posted free on application, please state the class of room you wish to paper, and the price and colour you would prefer.

Pr48.

A Pretty Wallpaper, with gold flowers and green centres, with green leaves outlined with gold, on a light green background, with gold dots and green lines on it. Same design in pale blue background, with gold flowers and medium shade blue leaves, outlined with gold. This paper is one of our special lines. It is of good weight, easy to hang, well finished and printed in good standing colours. Our price is 6½d. per roll.

WALLPAPERS.

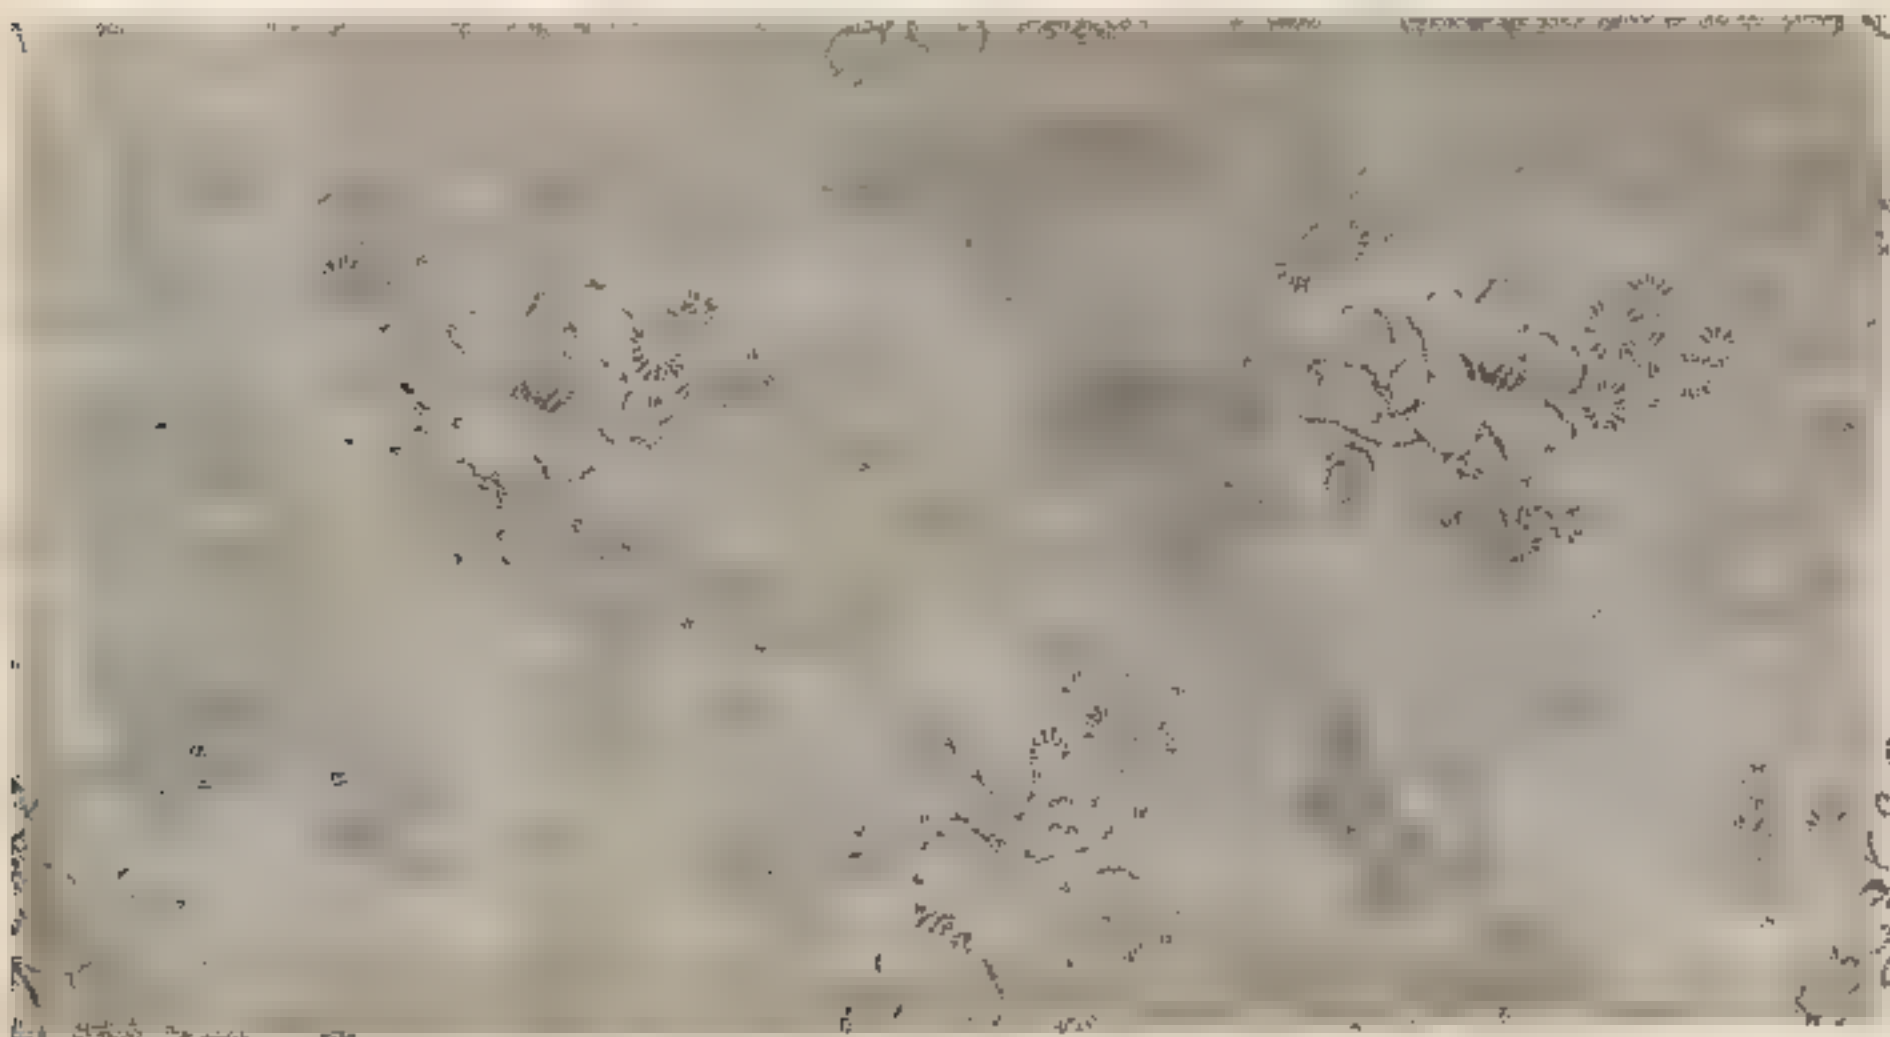

Pr51.

White Flowers, with white leaves and small sprays, on a middle green shade background. The ground is figured with small white diapers. This paper is of a heavy texture, and is well finished. Excellent value—4d. roll. We also have this design in a better class paper. The flowers are gold, outlined with green and green leaves, with gold on a white background and gold flowers and middle green shade leaves, on a light green ground background. Also in gold flowers, with blue leaves, on a lighter blue background, which is covered with small blue and gold diapers of a deeper shade. Price, 6½d. per roll.

Pr52.

Rose Tree Frieze, dark green ground, pink roses, 21in. wide; 21in. repeat. Price, 9d. yard.

Pr53.

This is a Well-covered Paper, of good texture. The design illustrated is of green flowers, with gold centres, outlined with gold, with green stems and green leaves, with smaller gold flowers, on a white background. We have this paper in four different shades—blue ground, with deeper blue flowers and gold outlines; middle green ground, with bright green flowers and gold outlines; light green ground, with flowers of a deeper shade outlined with gold. This design in any of the above colours is very suitable for bedrooms, and as the price is low and the quality good it should find favour with our customers. Price, 5½d. roll.

Gloss Oil is specially recommended as a first or priming coat on all inside work whether on plaster, cement, metal, bricks or wood. It is a better filler than paint or varnish, so that two coats of paint on a gloss oil primer gives much better finish than three coats of paint, and at a smaller cost. Gloss Oil does away with the necessity of lining woodwork, and ensures the paint drying quickly and with absolute certainty. Water stained walls and smoky ceilings can be distempered after one application of Gloss Oil. Sold in 4 gallon cans at 10/6 per tin.

GRACE BROS.' MERCERY

We have devoted a great amount of time and trouble exclusively to the perfecting of a **Ready-to-wear Shirt**, materially different from the ordinary machine-made garment, scientifically constructed, made full where you need the room, and **reinforced at the vital points**, to stand the wear and tear of the laundry. From button to button hole, from cuff to neck-band an **exquisitely tailored shirt**, and every bit as perfect as if made to your special order.

When ordering Shirts or Collars, PLEASE STATE SIZE, as it will save inconveniences and delay.

Men and Children's Hat Department.

OUR line of Hats comprises all the new shapes that are popular and in good taste, as well as the styles that have long been in vogue. We illustrate and describe on these pages the new and fashionable styles, made from the best grades of stock and trimmings. These hats possess all the qualities that appeal to the careful dresser, and are suitable for men of all ages. A man's occupation and the section of the country he lives in determines, to a great extent, the style of hat he wears. Realising this fact, we quote and show all the popular and newest shapes. We have given particular attention to the quality of stock used in all our hats; never in any instance do we offer out-of-date hats. If you are in need of a hat, give our illustrations and descriptions your careful consideration, and we are sure you will be pleased with your purchase. We buy direct from factories at inside prices, many of the styles being made especially for us, and you can save by ordering from us. If for any reason you have occasion to return a hat, be sure it is properly packed to protect it from being crushed in transit. Every hat of 5/- or over is sent you carefully packed in a box to ensure proper shipment.

To Keep Your Hat in Good Condition.

1. Don't use a whisk broom; use a soft brush or a regular hat cleaner.
2. Don't brush against the "nap."

This department is situated on the ground floor of The Broadway Building, as shown on the plan on the other side of this page, and our stock of Men and Children's Hats comprises all the latest shapes and colours that are so popular this season.

The quotations given here will give but a poor idea of the grand selection we carry, but if we can induce you to call we shall surprise you with the magnitude of our stock.

We can only show a few illustrations on these pages, and rely on the values given to sell the goods.

This department contains:

A TABLE OF SIZES FOR MEN AND BOYS' HATS.

The table given herewith should be useful to salesmen not familiar with it. Frequently a piece of string or tape is brought by a customer to show the size of a hat, and without some sort of reference table it is necessary to measure each individual hat with a string. By the aid of this table much time is saved. The assistant simply measures the length upon a tape measure and refers to his table. Thus, if a piece of string brought in measures 20 inches long, the size is 6¾, and so on.

Size	Head	Hat. (meaning outside size of Crown).
5 7/8	18 1/2	19 3/4
6	18 3/4	19 3/4
6 1/8	19 1/4	20 1/4
6 1/4	19 5/8	20 3/4
6 3/8	20	21
6 1/2	20 1/2	21 1/2
6 5/8	20 3/4	22
6 3/4	21 1/4	22 1/4
6 7/8	21 5/8	22 3/4
7	22	23 1/8
7 1/8	22 3/8	23 1/2
7 1/4	22 5/8	24
7 3/8	23 1/8	24 1/4
7 1/2	23 1/2	24 3/4
7 5/8	24	25 1/4

To tell the size of a hat after the size ticket has disappeared, take a tape measure and measure first the length and then the breadth of the hat and divide the total. This will give the correct size.

Guide to Sizes.

When Ordering please quote the Measurement of Chest, Waist, and Inside Leg. Will save delay and annoyance.

We often find that a customer thinks that if size 5 say, is rather small, size $5\frac{1}{2}$ will surely be right; but not so, as a glance at the guide to sizes below will show, the waist measure for size 5 being 34in., and for $5\frac{1}{2}$ 32in. The reason being that sizes 3 to 7 are for ordinary-sized men, half sizes for tall, slim men, and quarter sizes for short, stout folk. When doubtful the guide to sizes will help you.

We study the Making of Trousers. We import the material from the makers, and make up the Trousers in our own factory, which is up-to-date in equipment, and supervised by an expert of over 30 years' experience, and we believe we are able to offer better goods, made in a better way, and a larger money's worth for the price, than can usually be obtained.

Our Trousers for work or day wear are made with ample leg width and seat room, and in every way strong and serviceable.

Our finer grades of Men's Trousers are made and cut as fashionably as it is possible to obtain in order clothing—and for the man who does not want the extreme of fashion, we have Trousers cut with more ample leg width, though retaining shapeliness.

Then for the man who finds it difficult to get good fitting trousers in the ordinary sizes of 3 to 7 we have cross sizes, called quarter and half sizes; half sizes being designed for tall slim folk, and quarter sizes for men of stouter build.

The Business Man's Trousers.

PIPES.

So long as there is money price will always be a consideration, but in Pipes this great factor, price, must give way to a greater, namely, quality. Our stock of pipes is most extensive, and such as we are able, we guarantee. The pipes shown on this page are actual photos of the goods themselves, and our customers can rely on getting exactly what they order.

We carry in stock all the popular brands of smoking tobaccos (both cut and plug); also the well-known brands of chewing tobaccos.

Send in a trial order for comparison, you will be truly delighted with the values.

Tobacco.

OUR SPECIALS.

The Broadway Pipe Mixture—A Tobacco de luxe in every sense. It is a blend of seven different tobaccos, each the very best of its kind. A Tobacco like this is not found in a day, or a week. It was the outcome of months of experiment by Mr. Bryan, our Tobacco Expert, to find a blend to suit a very delicate palate. It has a taste and aroma which only the choicest of tobaccos will give, and is perfectly smooth to the palate. It has no equal in flavour and delicacy of taste. In three strengths -Light, Medium, and Full.

Price 6d. per oz., or 7/6 per lb.

The Broadway Plug—This splendid Tobacco will appeal greatly to those who smoke plug tobaccos. The quality of this tobacco is perfection, obtained by first class workmen through using only high grade leaf. It is manufactured for Grace Bros. only. Not only has the quality of this tobacco been studied, but also the prices, which we think are satisfactory.

Price: Bright, small 6d., large 1/-, per lb. 4/9; Dark, small 6d., large 11d., per lb. 4/6.

Cigarettes.

The Broadway Virginian Cigarette. The popular line of the million. This Cigarette will compare favourably with all other competitive lines. The grade of tobacco used in the manufacture is of the highest quality. They are packed in a flat cardboard box so that they will not be a bulk in the pocket. Each Cigarette is tipped with gold, which keeps them from sticking to the lips. They are hand made and free from dust, which medical men say is so injurious to the throat.

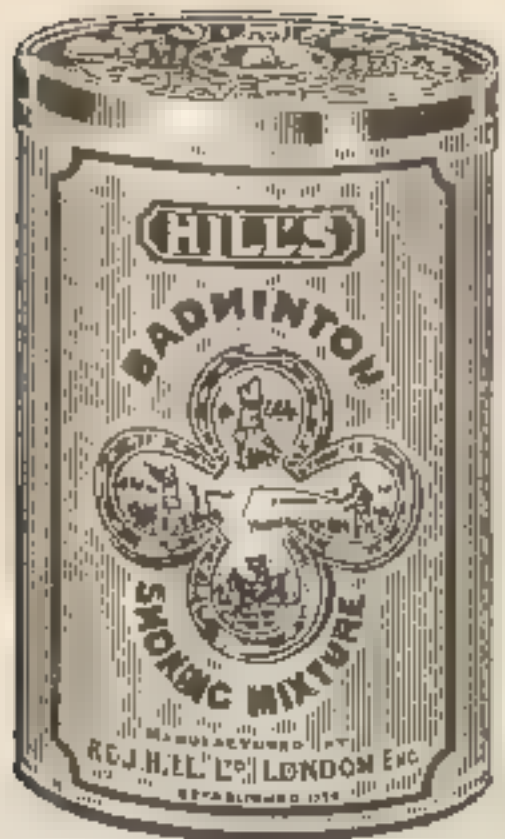

Price 6d. a packet of 10.

Luncheon Bar Cigarettes. This Cigarette makes a splendid after-dinner smoke. They are tipped with cork on gold, and measure 4 1/4 inches in length. These Cigarettes are made from the best selected Virginian tobacco, fully matured and scientifically manufactured. They will make a splendid present. Packed only in boxes of 100 Cigarettes.

Price 10 for 1/-, 7/6 box of 100.

Pf51.

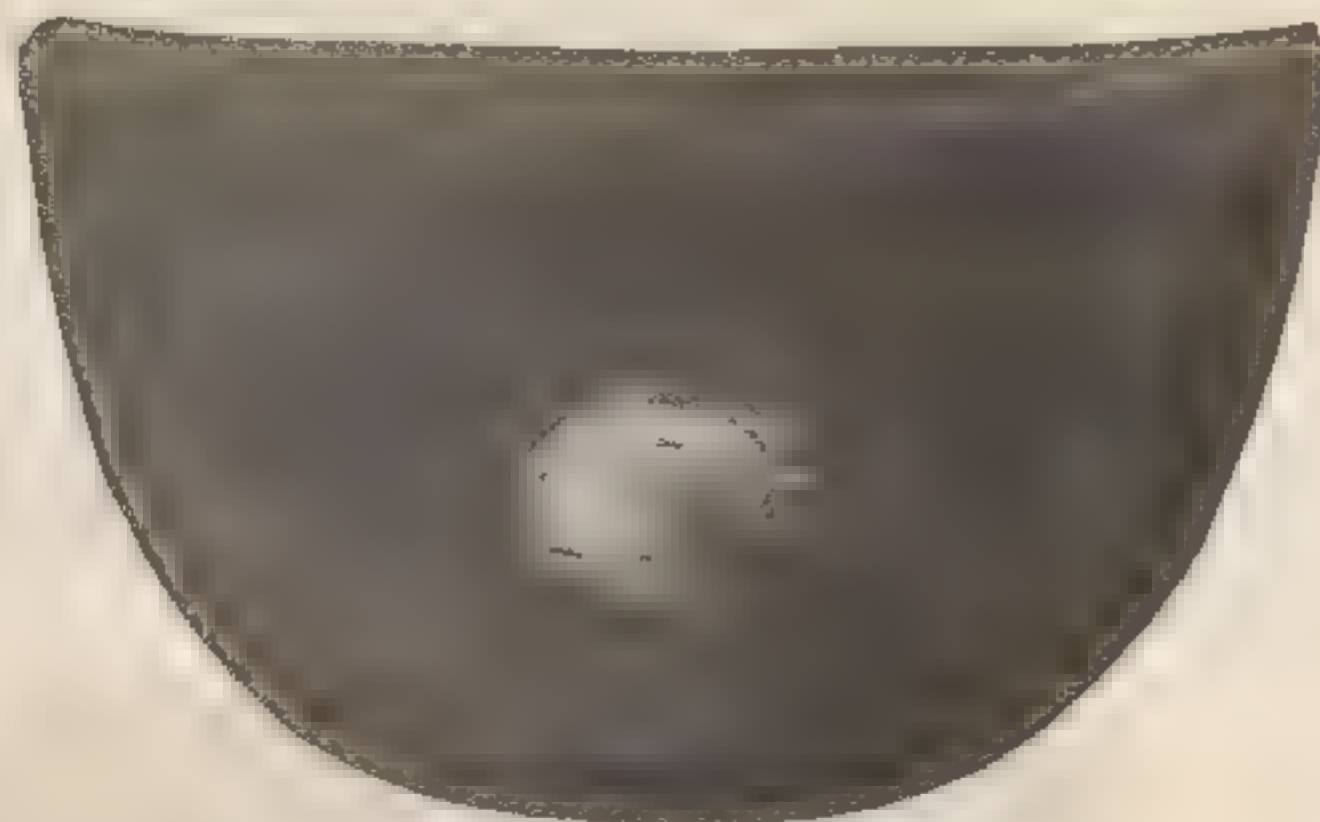

A Sensible Present for the Man who Smokes.

The average male individual is a very difficult being to cater for in the way of small presents, as every wife, sister or best girl knows full well. The things which he likes best are, of course, just those which a woman dare not offer for fear of very sarcastic remarks which almost invariably follow. But they are presents which, if the man in question is a smoker, will always be appreciated, and which are always seasonable. We show here an actual photograph of a box of "Heraldo" Cigars, which are sure to meet with approval. The fillers of these cigars are clear Swiss, of good quality; they are hand-made by the best of workmen, and neatly packed, and enclosed in a dainty little box. These we are able to offer while the stock lasts at the exceedingly low price of 2/6 per box of 10.

Include a Box in your next Drapery Order.

Saddlery and Harness Department.

GRACE BROS., in submitting this catalogue, beg to intimate that it by no means represents their entire stock. It would be utterly impossible to enumerate every article. We have endeavoured to give description and prices of leading and every day lines only, which we trust will be a guide to our customers who cannot call and select personally. We would ask, if you do not see the particular article you require quoted, to send us a rough sketch and particulars if it is an article not in general use, and, doubtless, we will be able to supply it. It has been and always will be our aim to give all orders entrusted our prompt and careful attention, and whilst maintaining the high-class quality of our goods, to supply them at the most reasonable price.

In our Harness Department we have a great variety of Buggy, Sulky, Gig, Pagnol, Spring-cart, Van, Dray, Leading Dray, Plough and other Harness.

We manufacture Carriage, Four-in-hand, Tandem, Dogcart, Pair-horse, Express, Coach and other Harness in any style and with any description of mountings that may be required. All parts of any sets of harness can be supplied separately.

All our Harness is made from the best-selected leather; consequently, from the start we lay the foundation of a good article.

Our Harness is made by skilled harness-makers only. All harness is made to fit horses from 15 to 16 hands high. Mention should be made if a smaller or larger size is required.

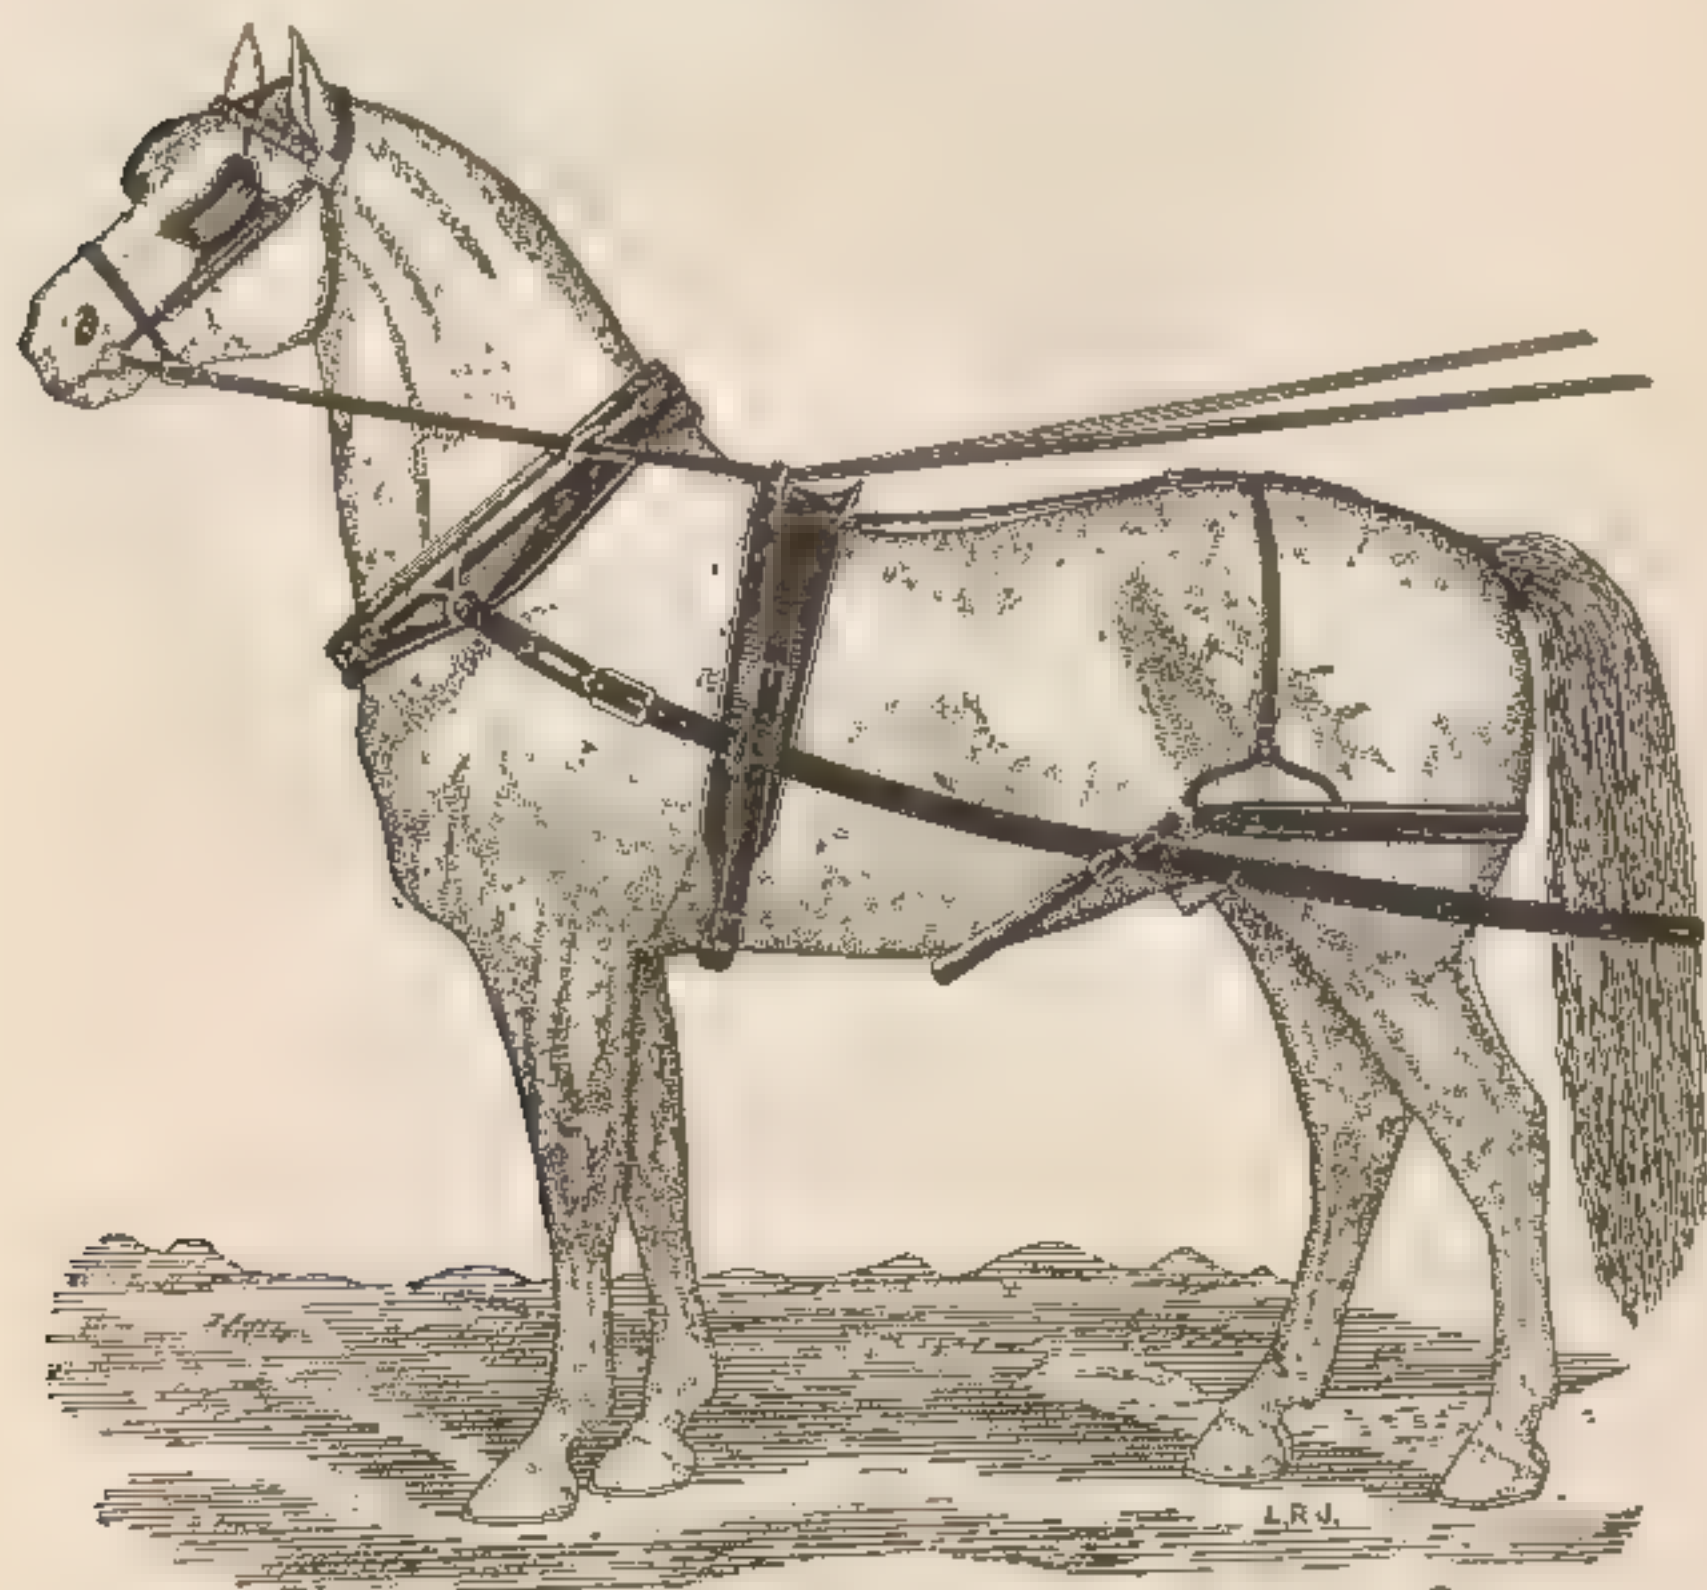

To order Harness to fit horses, with a tape measure give us the following sizes:—
From centre of crown of head to corner of mouth, around girth at saddle, from back of saddle to dock of tail.

For collar, if possible, measure an old collar, and give the length from inside rim at bottom to inside wither at top, i.e., a straight line down centre of collar and across at widest part, or if a collar is not available, give similar measurements, taken from horse's neck.

To order leggings, take the length from centre of heel to top of calf and the size around thick part of calf and around top of ankle, and state if you require leggings to buckle, or with spring sides, or with laces, and if you require toe caps to cover boot laces.

Do not spare particulars in your orders. The more information you give us the more likely we are to please. Send a rough sketch of your wants if possible.

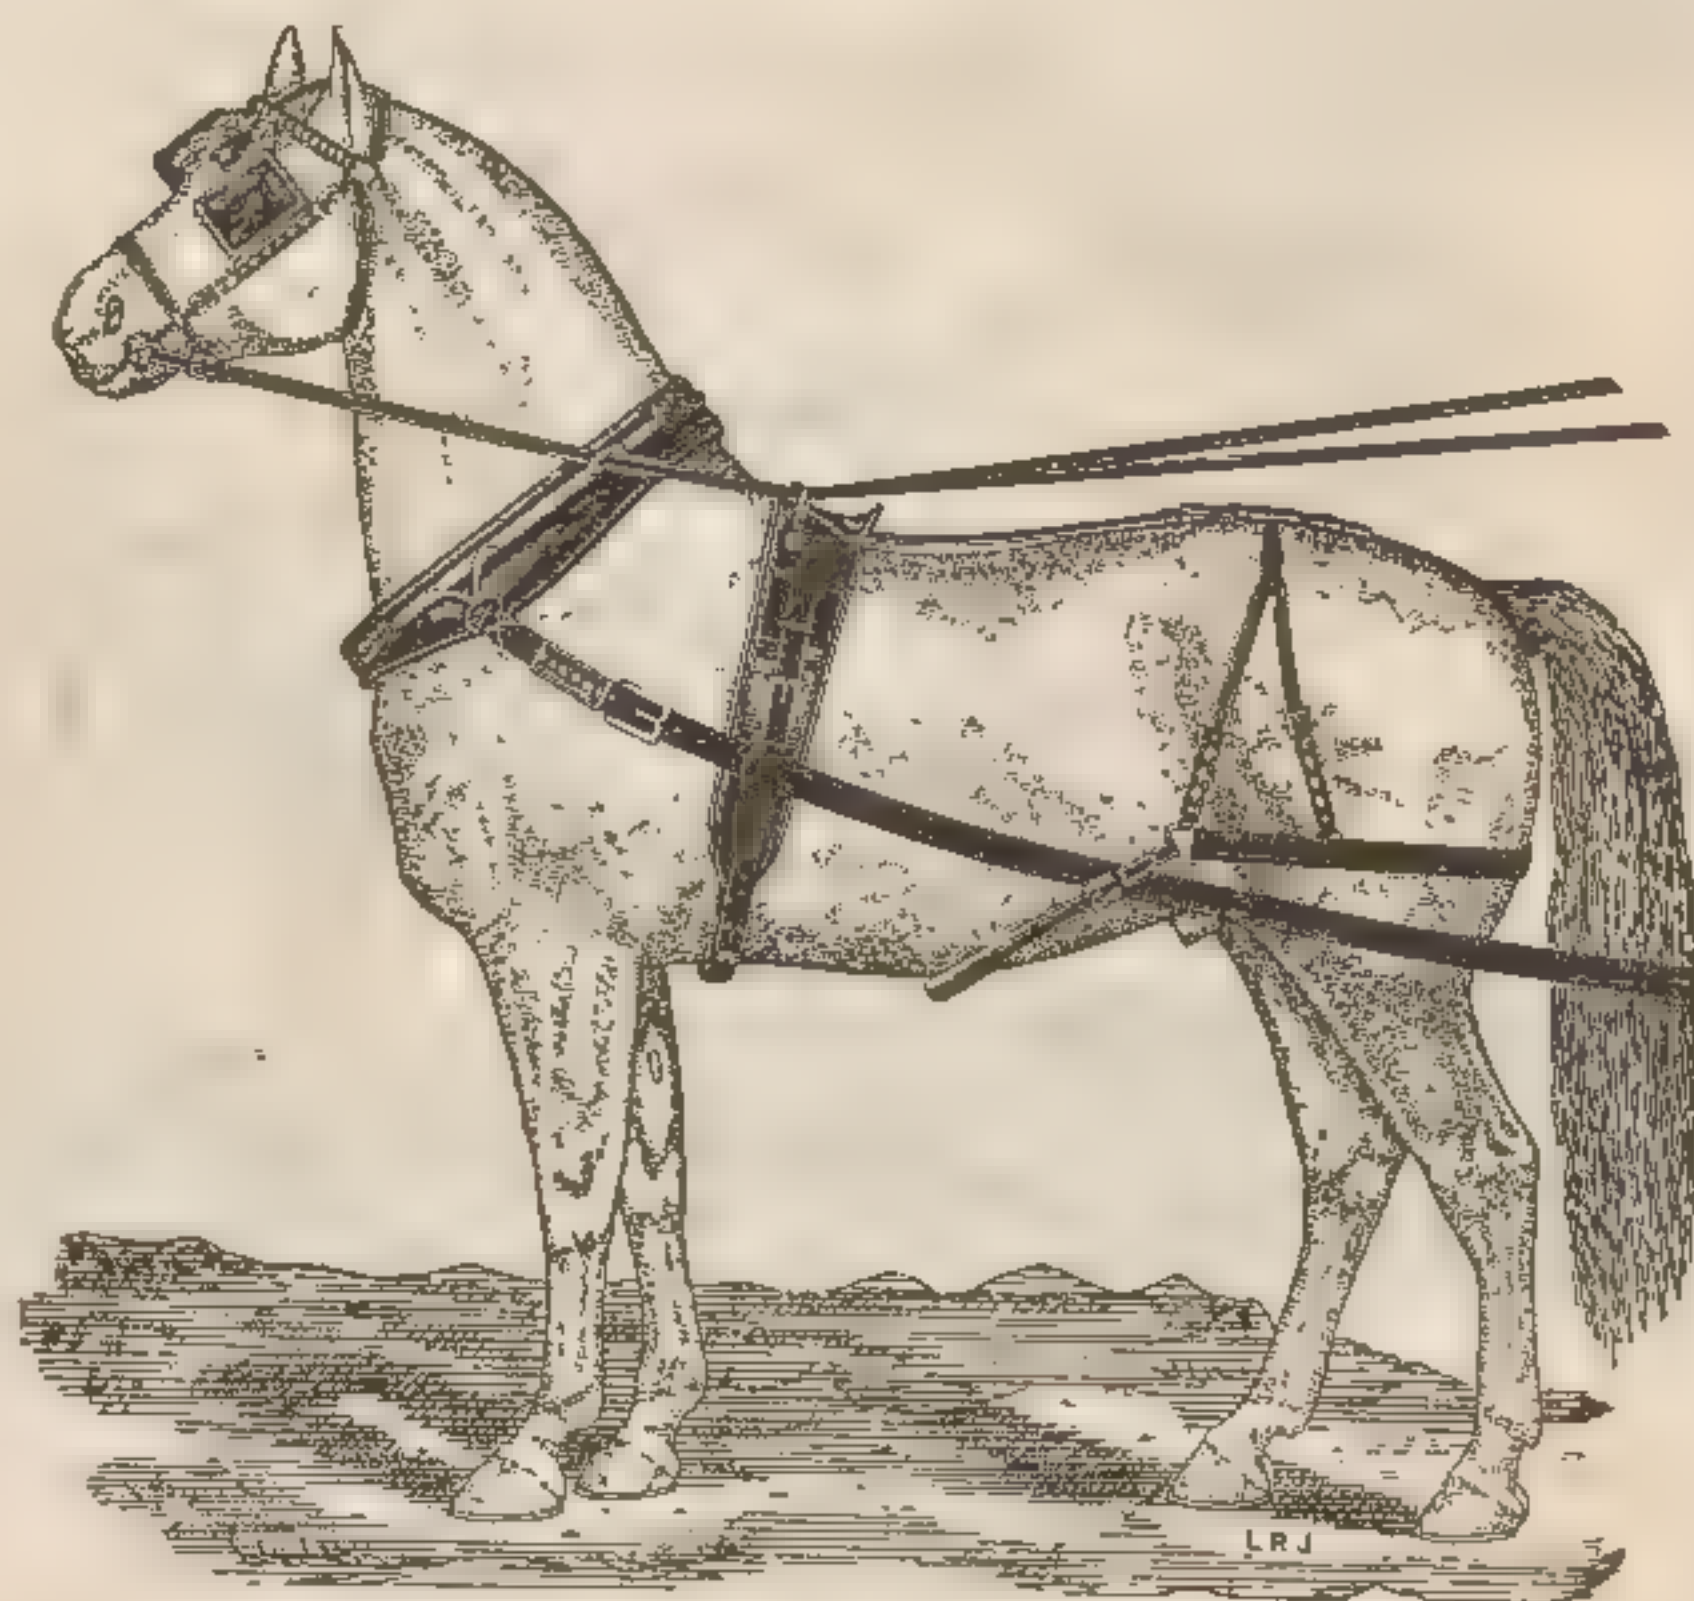

Customers ordering by post are treated in the same way as customers buying at the counter—the same prices are charged and selections are made by capable assistants, who spare no efforts to please customers by helping them with their knowledge and experience in selecting articles most suitable to their wants. Every thing sent to the country is carefully packed by experienced men.

The great Ruskin has truthfully written, "A room without pictures is like a room without windows."

Do not fail to write us for information on pictures or framing in any of its branches. We employ a staff of expert framers in our own factory, and believe our stock of pictures is equal to any in Sydney.

PU162.

"The Meeting of the Waters, Killarney."—This is one of a range of nine charming little Irish scenes, which we are now offering, knowing that they will meet with popular favour, being faithfully coloured photographs of beautiful scenes familiar to many, size outside, 16½ in. by 14 in. Grace Bros.' price, 1/4½.

A FEW OTHER OF OUR SPECIAL LINES IN FRAMED PICTURES.

Delicately Coloured New Zealand Scenes, in imitation water colour, on green mounts, and 1¼ in. green polished frames; size, 14 in. x 11½ in. Grace Bros.' price, 2/3.

The world famous Black and White Sketches of Dana Gibson, faultlessly reproduced in Japan proof, and framed in light stained 1½ in. oak; the range of subjects comprises 60 of Gibson's most popular satires; size outside, 23 in. x 19 in. Grace Bros.' price 5/11.

PU164.

PU164 and PU165—A Splendid Value Panel, containing a variety of ten picture subjects, which include Rough Sea Scenes, Woodland Glances, Highland Cattle, and Stags, in either brown or green tones. The frames are of select art design, ornamented and gilt tipped; altogether these panels are to be thoroughly recommended as being highly finished and attractive, outside size, 25 in. x 16 in. Price, 2/11.

Handsome Presents.—Hand-painted Pastels, suitably framed, in 2 in. brown or green oak, in shades of mounts to suit, with glass, 10/6 each, complete. These pictures are painted from Australian landscape and coastal scenery by M. Montgomery, a well known artist. They are specially adapted to dining and drawing room decoration, in two shapes, 28 in. x 23 in., and 22½ in. x 19½ in.

PU166.

Bevelled Mirror, a most useful combination, 5/4 in. bevel; best quality plate, suitably framed in art design, heavily ornamented, gilt tipped; outside size, 18 in. x 16 in. Grace Bros.' price, 4/3. Other sizes, more elaborate design, 20 in. x 14½ in., 5/6; 22 in. x 18 in., 7/9.

PU163.

PU161 and PU163—A strikingly handsome pair, "Veronica" and "Francesca," panels, as illustrated, are delicately treated subjects in black and white, framed in highest grade oak, stained brown or green, size outside 17½ in. x 13 in. Price, 2/3 each.

PU165.

PU164 and PU165—A Splendid Value Panel, containing a variety of ten picture subjects, which include Rough Sea Scenes, Woodland Glances, Highland Cattle, and Stags, in either brown or green tones. IMPORTANT

Send exact measurement of pictures (length and width) to be framed when ordering, if the moulding is required cut. In all cases remember that in cutting mitres the waste is eight times the width of the moulding. Thus in a 3in. moulding the waste will be 8 times 3, or 24in.

In all cases full lengths will be charged, but should we cut moulding for joining, and there be the balance of a length remaining, same will be forwarded with your order.

In none of our many departments are we better able to suit the varied tastes of our customers than in our Picture Department. In addition to our ordinary splendid range of pictures, our new season's goods have arrived, and contain many gems of art which will be keenly appreciated by picture lovers, as all Australians are, though in many cases lack of means forms an obstacle to acquiring those pictures appealing most to the imagination. We have endeavoured to remove this obstacle, and have succeeded, inasmuch as we can now offer to our patrons highest grade reproductions of innumerable famous pictures at prices agreeable to the most slender purse. Moreover, we employ expert framers in our own factory, and with our splendid range of best quality moulding can meet your every requirement in a manner which we think will meet with general approval.

GRACE BROTHERS have much pleasure in presenting their

GENERAL CATALOGUE FOR 1910.

TO our Customers—past, present, and future—with this volume we send greetings. The success which has attended our monthly periodical, "The Model Trader" (may its circulation keep on increasing), has induced us to compile in as concise and comprehensive a form as possible a complete catalogue of our 95 departments. As a Shopping Guide to those who pay us a visit, or to those who are miles away from us and write to us, we hope it will prove of great assistance. Please note that many of these pages were printed in November, 1909, and the prices were correct then, but it must be distinctly understood that **Prices are always fluctuating.** In all cases we execute orders at the current price of the day, and rest assured the price will be the same to those who write from the country as to those who buy at our counters. We wish to prove to you that we

"Keep Faith with the Public."

Now, about **mistakes**—we all make mistakes, don't we? Even the best of us do, but the best of us are those who make fewest. When we make a mistake, write to us and tell us of it; if very serious, mark the envelope "Private," it will then be opened by one of the partners. We are anxious to retain your good opinion, and shall therefore do our utmost to give you satisfaction. Please recollect this, that the two partners who are now directing this business, employing over 1,000 employees, are the same two men who started it in August, 1885, with one assistant, and in this record of nearly a quarter of a century we have built up a business of which we are proud. Every bill that is made out in the premises we look upon as our personal guarantee that it represents a fair, square deal.

General Instructions About Ordering.

Suggestions

WE would be glad to receive suggestions from our customers with regard to this catalogue—especially with reference to the Index. We would like to know if you had any difficulty in finding any article in this book by looking **ONCE** at the index.

Write to the Catalogue Editor on any point you may require information upon, and your communication will be promptly acknowledged.

This book is for you—whether you are a lawyer, farmer, doctor, miner or plain everyday citizen; for your wife or your children. It is our duty to show everything for everybody.

We do not mark some goods at cost to convince people that our prices are low. Some of our sales hands have been employed by firms who made a practice of marking some goods at cost price, but woe betide the assistant who sold those goods. They only retained their positions by selling goods which carried a better profit.

We do not call that "Model Trading." Every line we quote we are pleased to sell, and we do not rely on the cleverness of our sales-hands to influence a customer to buy something different to what they ask for.

Our Buying Organisation.—Our buying staff is composed of men of undoubted ability and training—men who thoroughly understand trade conditions, and from years of experience are ever ready to secure the best possible offers of a varying market.

Most of our staff are men who have been with us for considerable periods, and are given almost unlimited freedom in the matter of their buying, for we impose only one restriction—that they avoid the lowest grades and trash of any description. We only handle goods of sound quality and merit.

Write Your Full Name.—If your name is Henry F. Williams, don't write "H. Williams." If you do Harvey Williams may receive your mail, and you will blame somebody for delays. If you should use your initial only, somebody might mistake it in a hurry for another letter, which would not be the case if you used your entire name. Do not forget this advice. It is a simple matter, but if you want to save us, your postmaster, your stationmaster, and, above all, **YOURSELF**, time and trouble, write it "Henry F. Williams."

Use the Index.—It will help you to quickly find the article you are searching for.

Beware of Fraud.—Don't get caught by swindlers. Don't be misled by persons pretending to represent us. We have no travellers, canvassers or agents soliciting orders or taking magazine subscriptions.

Remember the following Points—

We have no agents.

We give no discounts.

And we give no commissions to any one for introducing customers.

General Instructions

Ordering by mail is not a difficult task, provided care is exercised and the following points noted :—

1. As far as possible select your goods from this catalogue, using catalogue numbers, and using our printed Order Form. If you have not an Order Form please use plain paper.

2. Give full name and address, and when using our Order Forms please give the information asked for.

3. Always allow sufficient for freight, trainage, or postage, stating by which route you wish us to despatch. On pages iii. to vii. you will find a full list of freight and postage charges.

4. Send money sufficient to cover the cost of goods and freight, and if you register your letter, you will avoid loss in the post and also ensure attention without delay. If you do not know the exact amount of cash required, try our Deposit System as shown on this page.

5. Do not write and ask if we have an article in stock. We will get it for you even if we have to buy it locally, and then will only charge you what we paid for it.

6. Remember that we acknowledge receipt of money **AT ONCE**, and if you do not get our printed acknowledgment within a few days write to us immediately, giving fullest possible particulars of your letter, how much it contained, and numbers of postal notes, and we will endeavour to trace it for you.

In Order to Avoid Complaints

We would ask you to read these instructions carefully, and we feel sure better service will be given if you follow them :—

1. Where possible, please use our printed Order Forms, which we send post free, and when writing give full name and address very distinctly, also whether Mr., Mrs., or Miss.

2. See that your letter is properly stamped—that is, 2d. for every half-ounce or fraction thereof.

3. State the amount of cash you enclose. Send sufficient to prevent disappointment; insufficient cash compels us to omit goods. Write at once if you do not receive acknowledgment. Make P.O.O. payable at George Street West.

4. Be sure and state how goods are to be sent.

5. Be sure and state size and colour required.

6. Be sure and state if we may send nearest to your order in case article selected is sold out.

7. No goods are sent out without the full amount of cash is received, and no offence or mistrust is meant when we write for the money. Ours is a cash business, and has been so since its commencement, and we must adhere to it, for it has been one of the means of our giving such low prices.

8. If you want balance of remittance returned please state on letter, as otherwise we place it to your credit against the next order.

Cash Deposits

9. To those who wish to avoid the inconvenience arising from our strictly cash terms, we would invite attention to our system of Cash Deposits. We will allow 4 per cent. interest per annum on the minimum amount to your credit each month. As you use the amount up we advise you, so that your balance may be kept in credit. To secure the interest it is necessary to mention that the cash sent is to be on deposit.

How to Send Money

There are many safe and convenient ways to send money. They are :—

Postal Notes and Money Orders, Bank Drafts and Cheques.

In accepting cheques we reserve the right to delay shipment until the cheque can be collected. (As it usually takes several days to get a big order ready for shipment, there is seldom more than a trifling delay). Make cheques payable to GRACE BROS., and allow 6d. extra for the cost of collection.

Postage Stamps are difficult for us to dispose of, and sometimes reach us stuck together. We would like to limit them to 5/- worth, but we will not.

We Recommend Money Orders as safest, as you are protected against loss if they miscarry.

Always Send Enough Money.—If your order calls for special goods or something built to your order it is best to make a liberal allowance for the cost, as we will refund any excess promptly. In allowing for postage or prepaid freight, send too much rather than too little.

Lost in the Post.—Some customers think if they post a letter to us containing money or articles of value, and it gets lost in the post, that we are responsible, but a little common sense will easily show that is an error. We cannot possibly be responsible for that which does not reach us; but we will help you all we can to get redress from the post office.
